

mobimate | 2023

UI Design Android

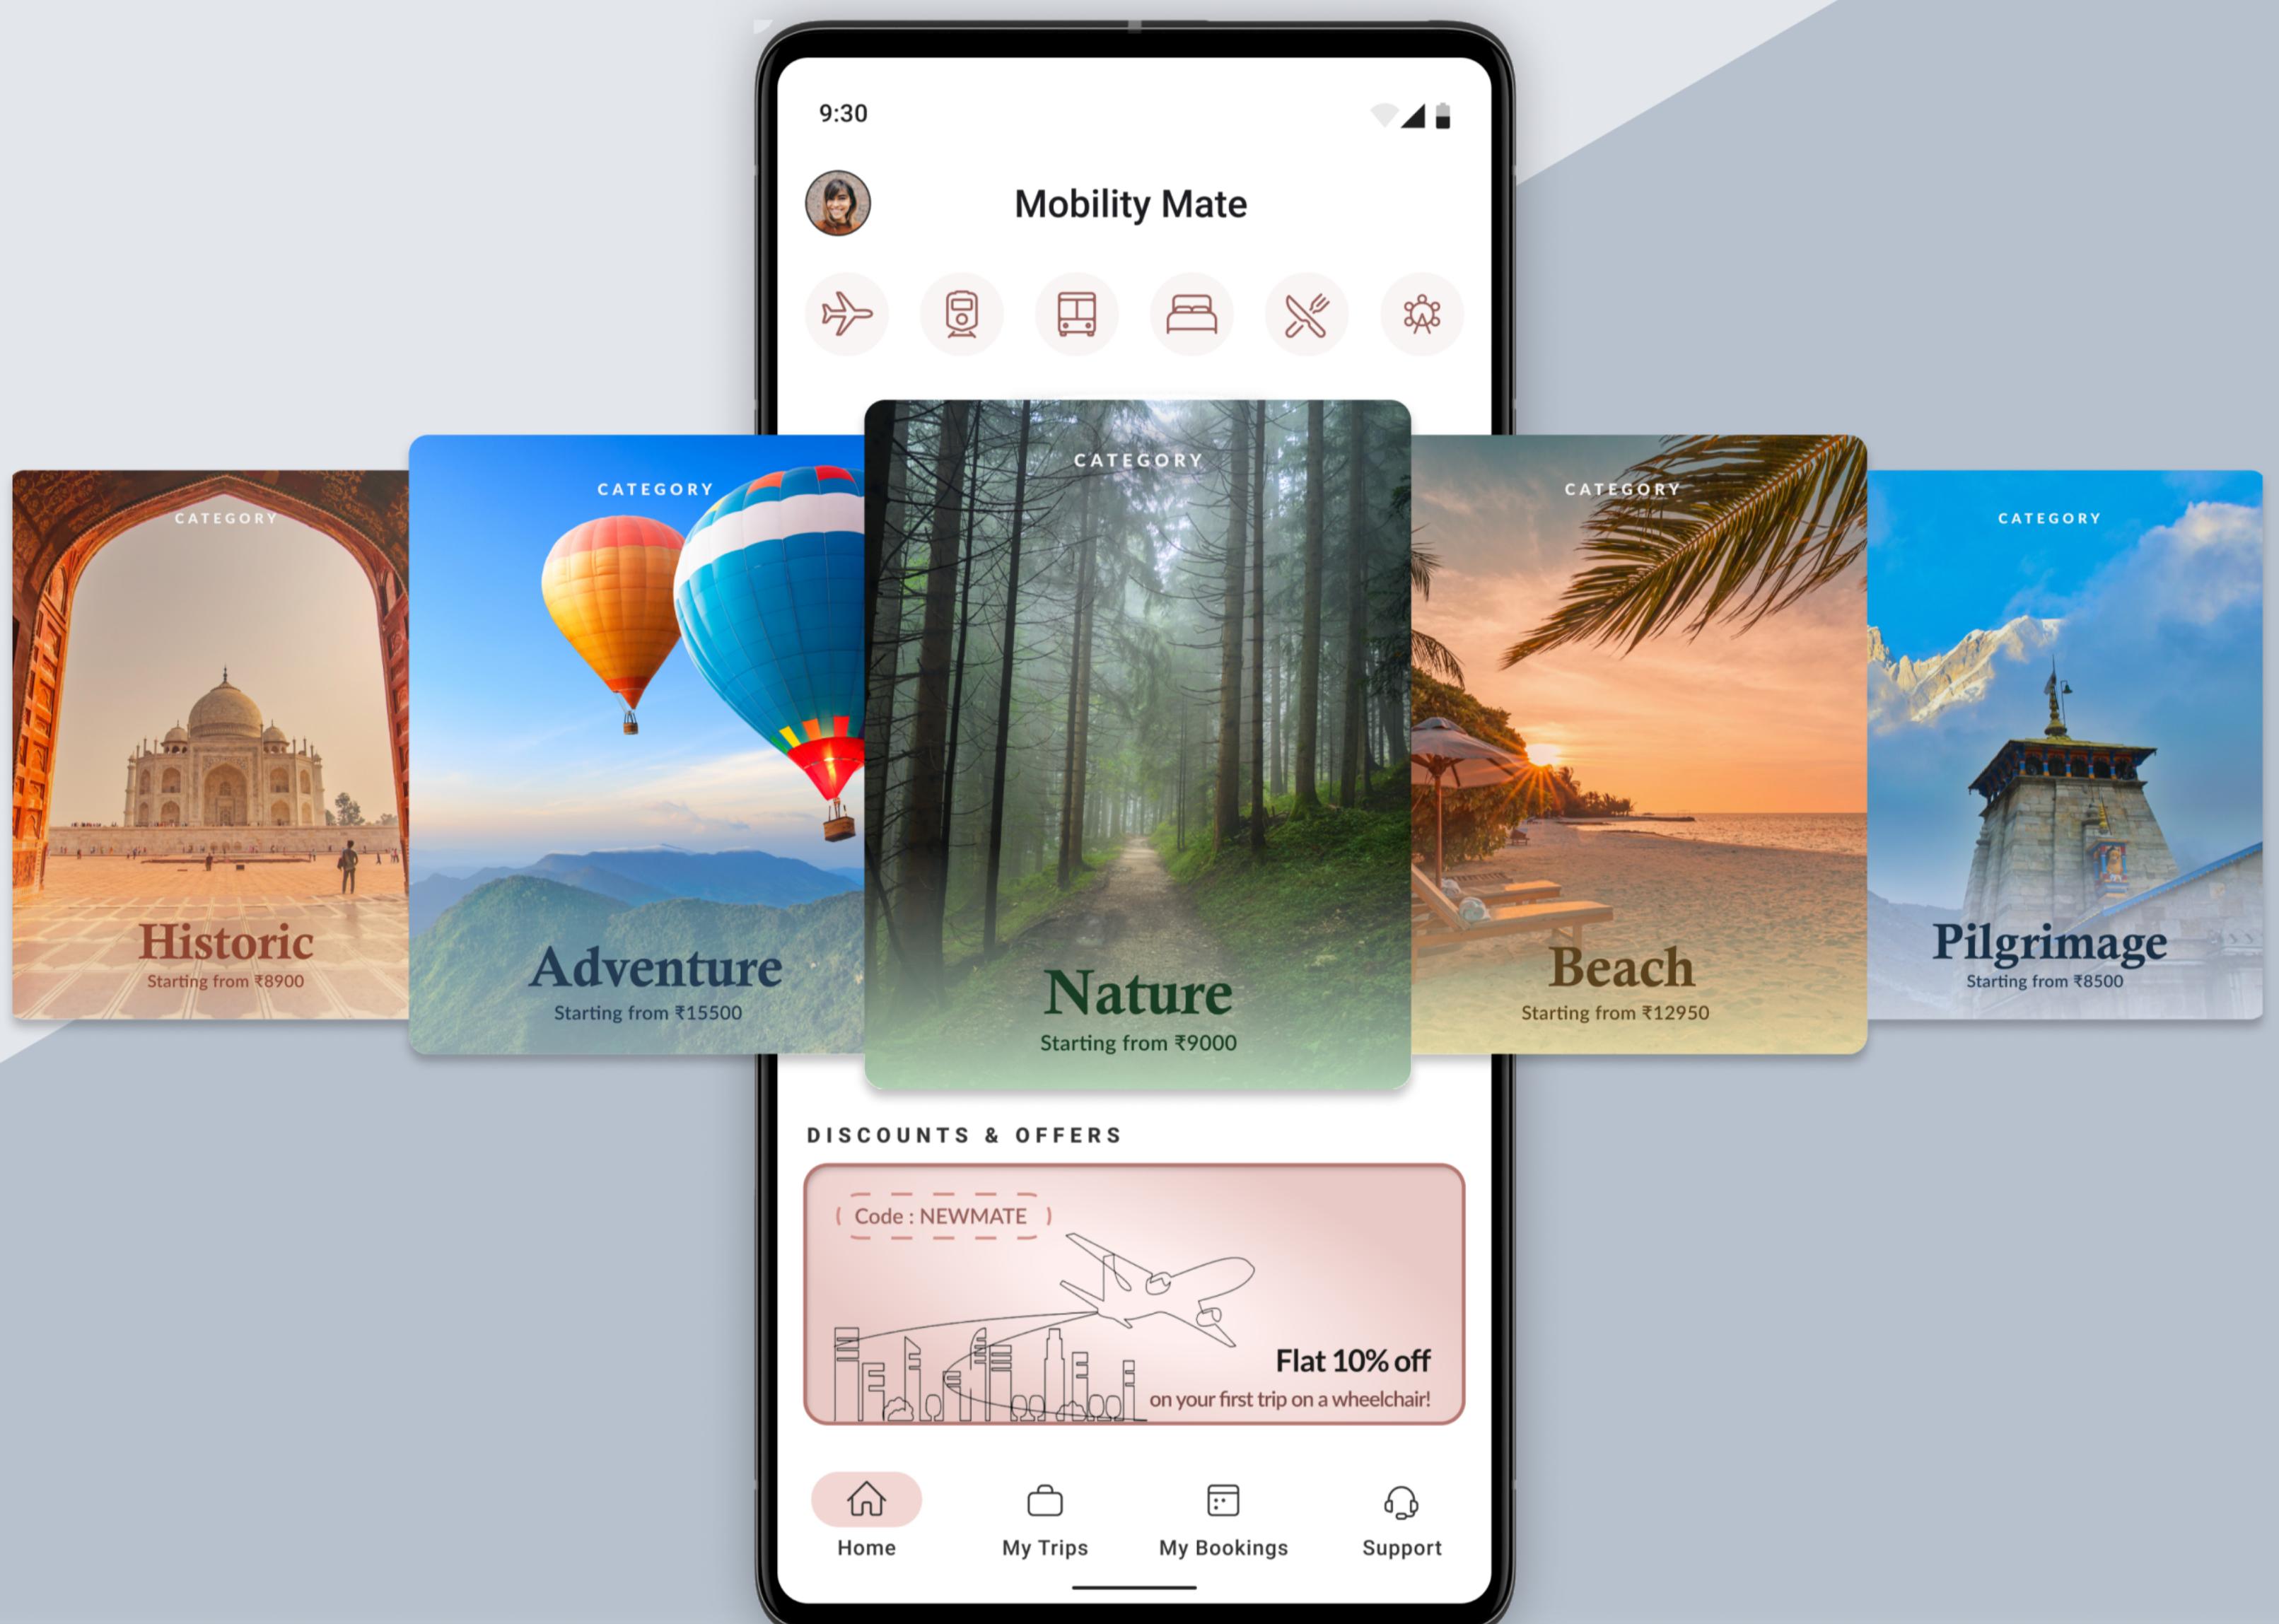

The image displays a mobile application interface for travel planning. At the top, a smartphone screen shows the 'Mobility Mate' app's main menu, featuring a user profile icon, a clock showing 9:30, and icons for flight, train, bus, car, food, and hotel. Below the phone are five cards representing different travel categories:

- Historic**: Starting from ₹8900. Shows an image of the Taj Mahal.
- Adventure**: Starting from ₹15500. Shows two hot air balloons over a mountainous landscape.
- Nature**: Starting from ₹9000. Shows a forest path through tall trees.
- Beach**: Starting from ₹12950. Shows a sunset over a beach with palm trees.
- Pilgrimage**: Starting from ₹8500. Shows a traditional Indian temple.

At the bottom, a banner for 'DISCOUNTS & OFFERS' includes a promotional code 'Code : NEWMATE' and an airplane icon.

Travel app for mobility-impaired individuals

01 About Project

MobiMate helps mobility-impaired individuals to find the trendiest accessible places according to user's exclusive needs, a smart travel guide who lets user personalize their itinerary and travel worry-free to elusive destinations. All brilliantly brought together in an app of uncompromising ease, comfort & utility. This is the beginning of a journey on wheels to a world with no limits.

UI ELEMENTS

02

Typography

Selecting a typeface keeping in mind consistency, readability, adaptability and design guidelines.

Roboto

1 2 3 4 5 6 7 8 9 0

03

Color Palette

Primary color is used strategically for buttons, call-to-actions and special offers, drawing user's attention to key elements, improving usability.

#5E3733

#B57770

#F2D6D3

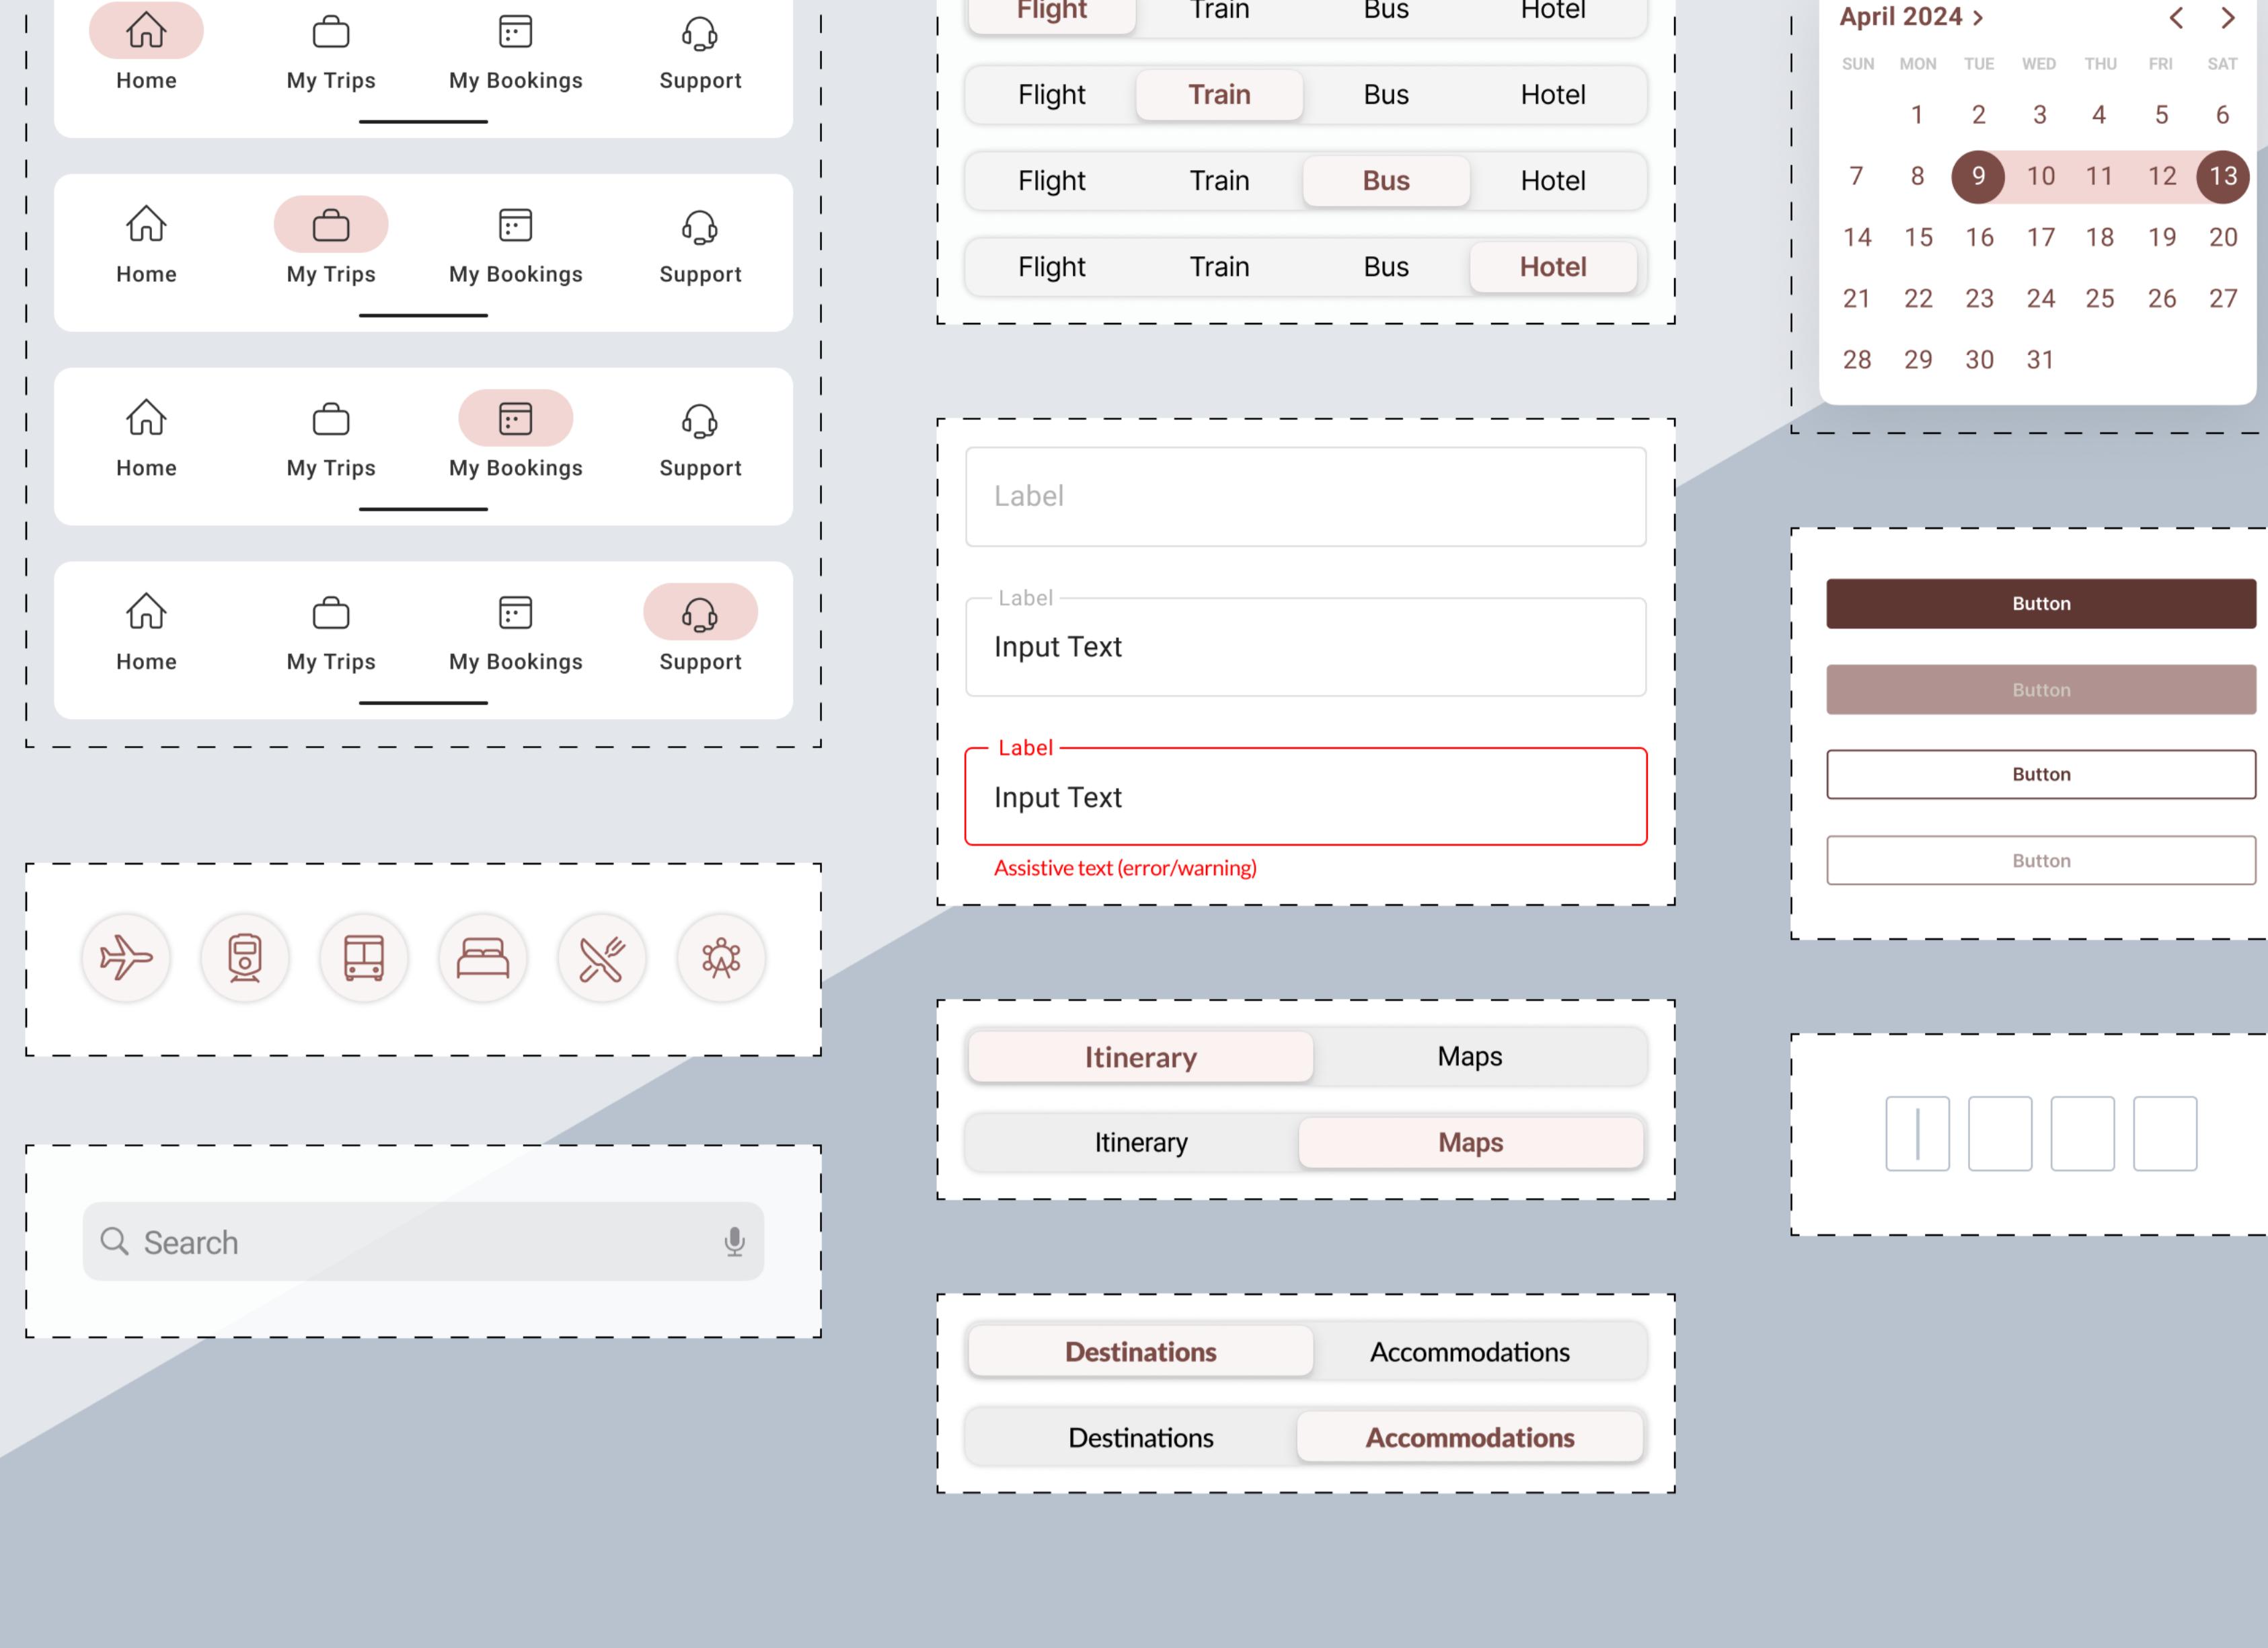

#1A1A1A

#E8E8E8

04

UI Kit

Components are used to create consistent, reusable elements such as tab bar, segmented controls, search bar, text fields and much more.

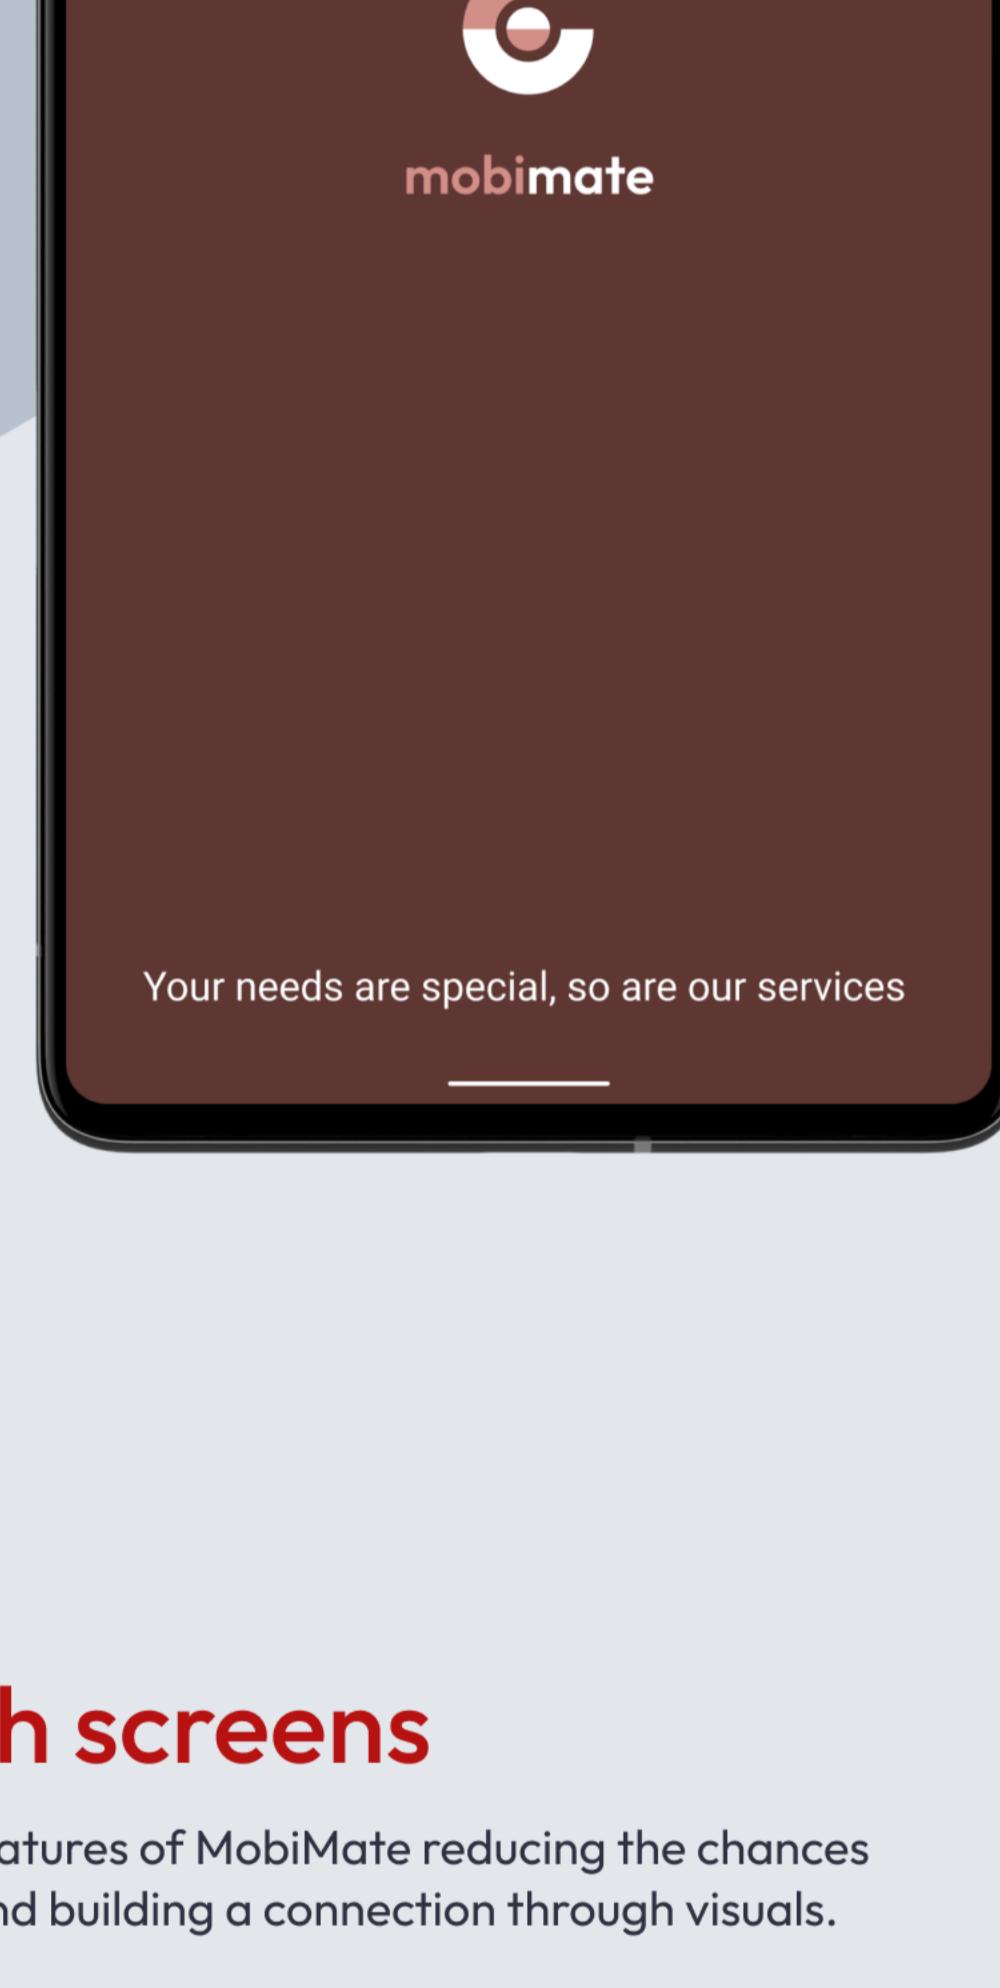

INITIAL SCREENS

05

Splash screen

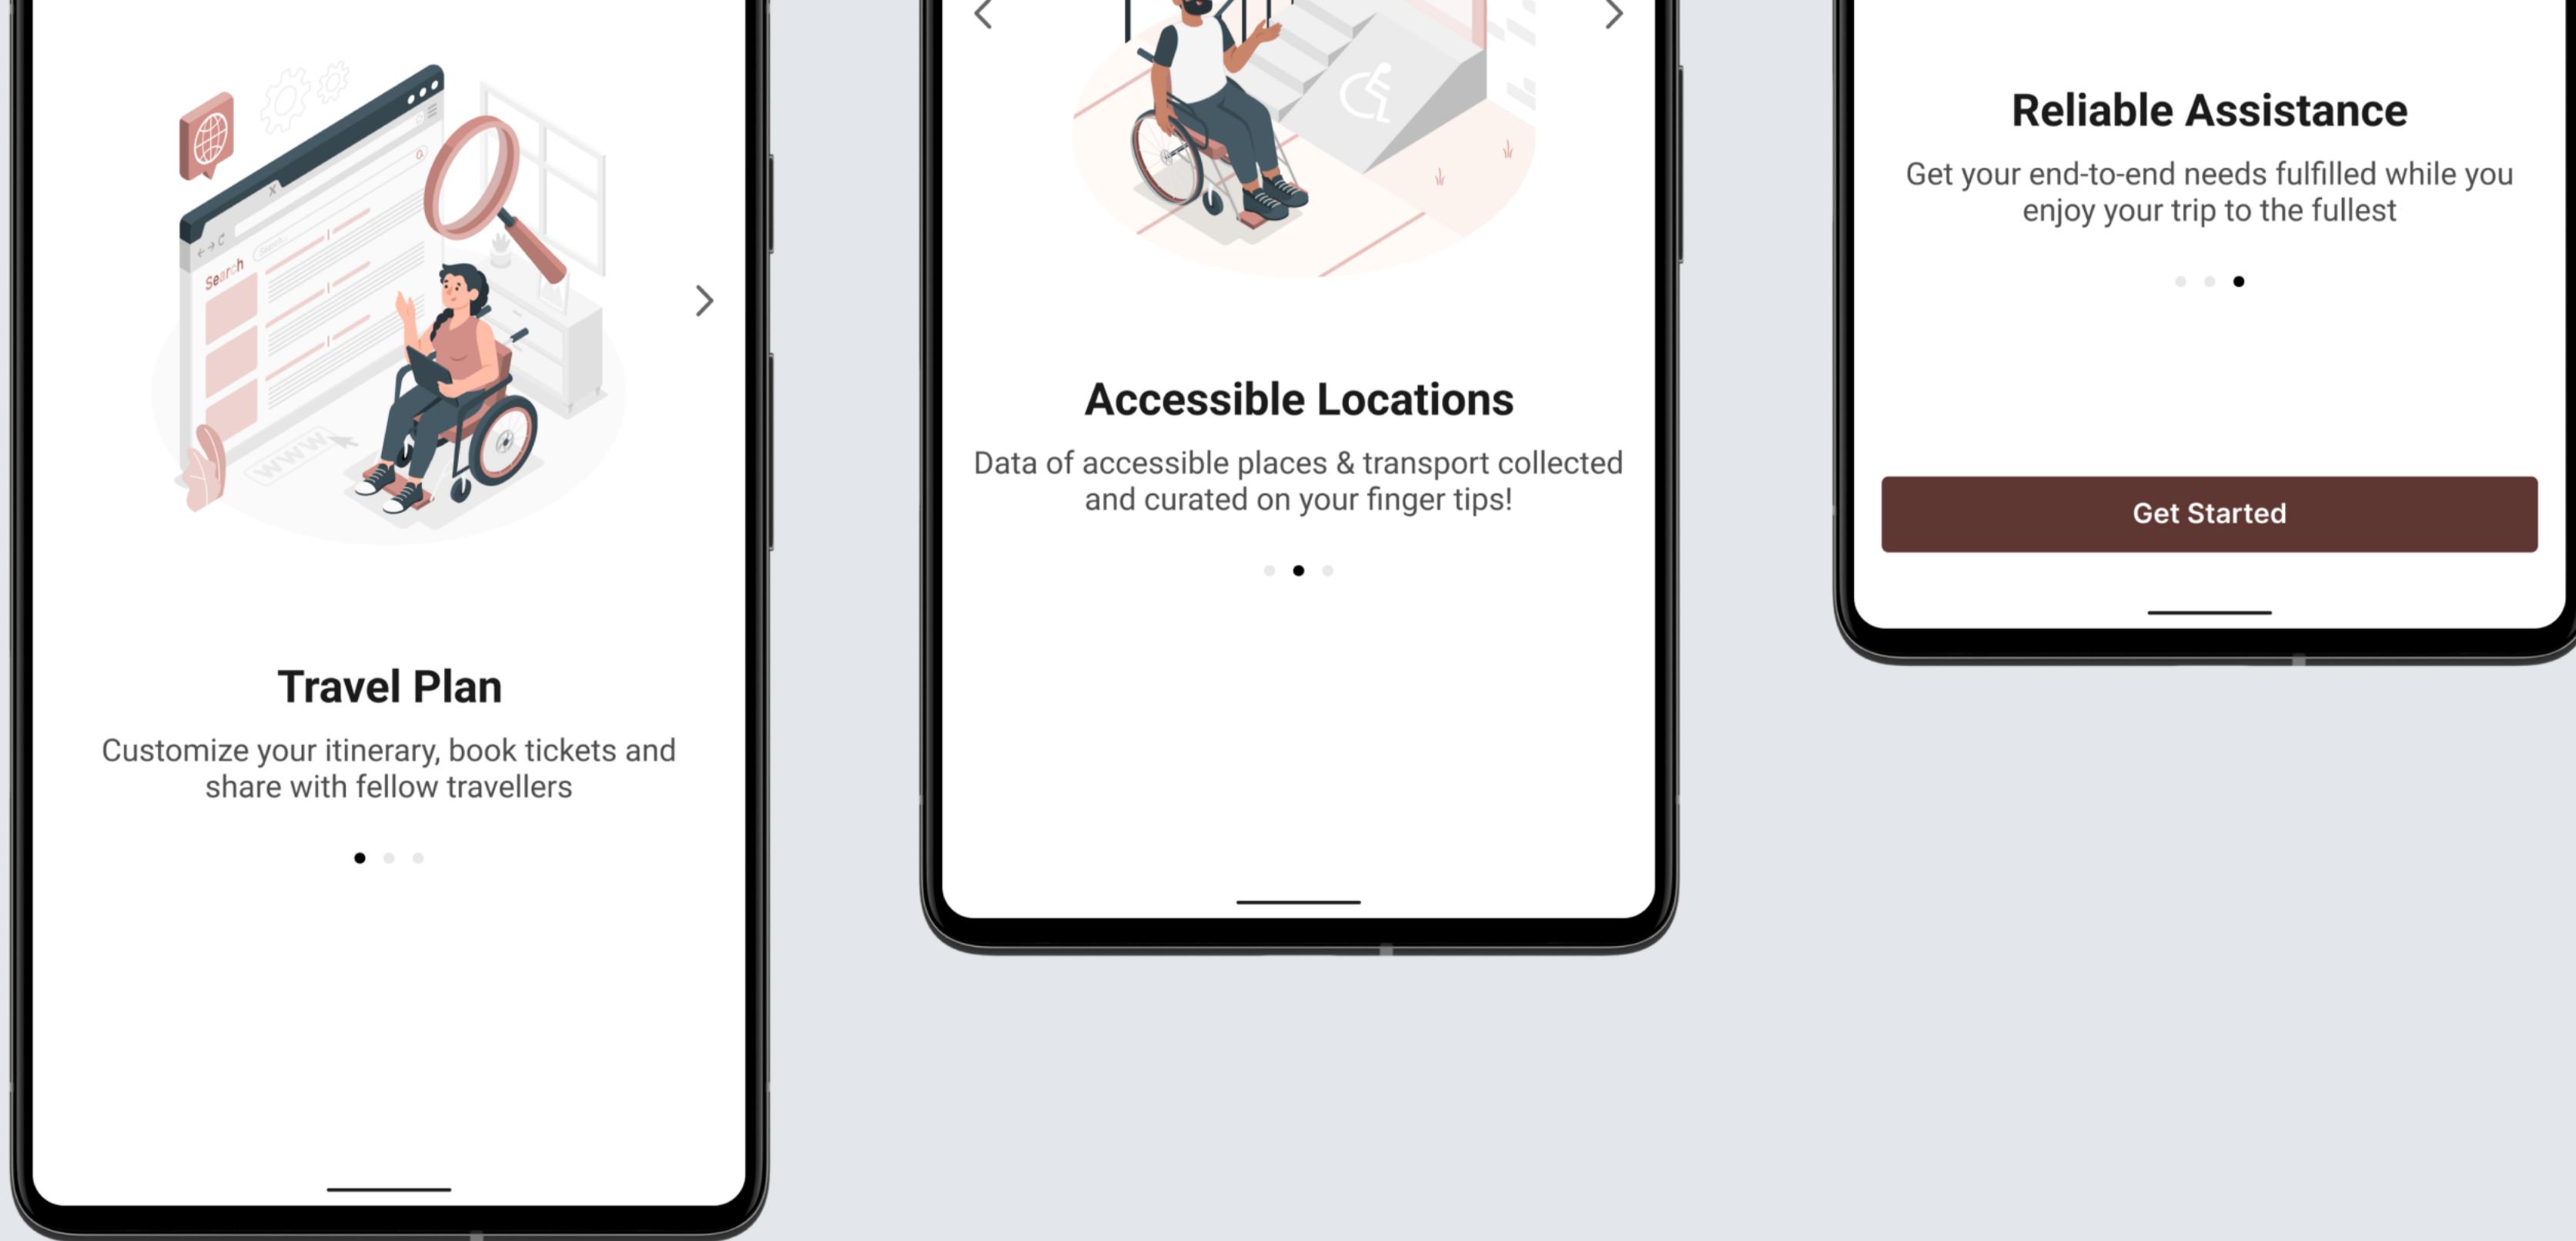

First impression which engages users during loading time, giving users a visual cue that the app is launching.

06

Walkthrough screens

Introducing users to key features of MobiMate reducing the chances of frustration/confusion and building a connection through visuals.

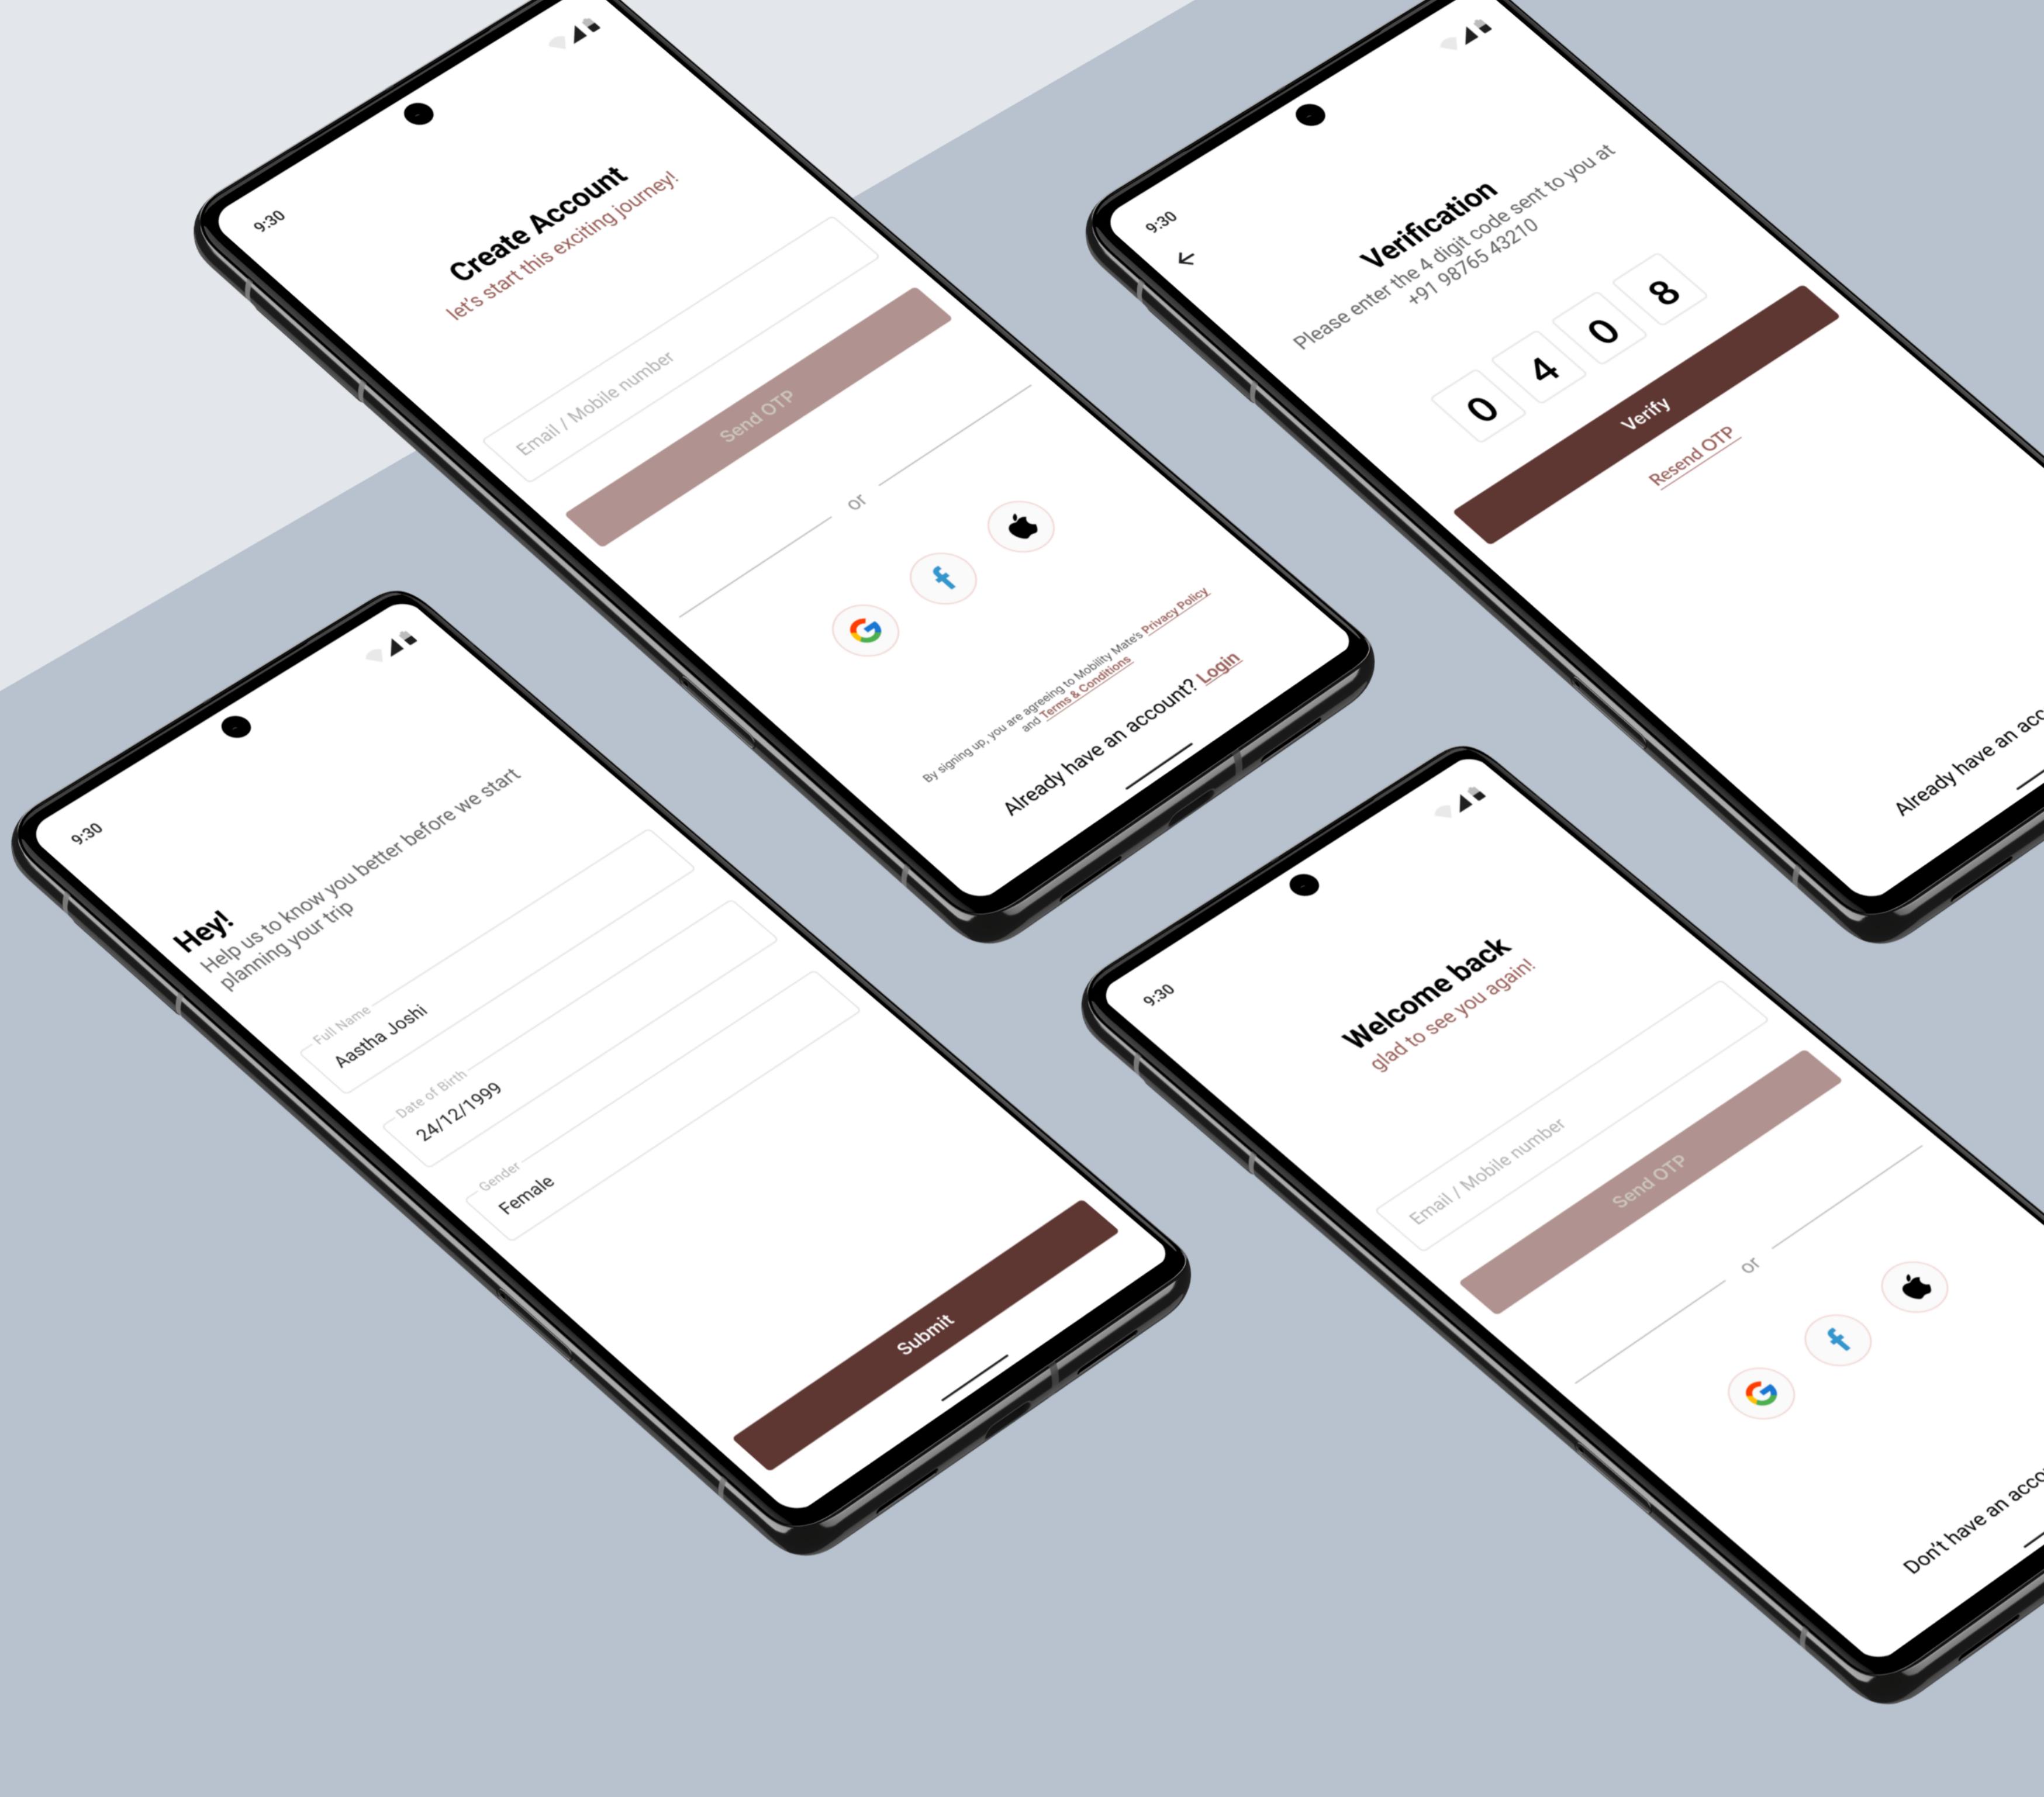

07

INITIAL

Onboarding screens

Facilitating user access to MobiMate for existing as well as new users, contributing to the overall security, personalization, and user experience

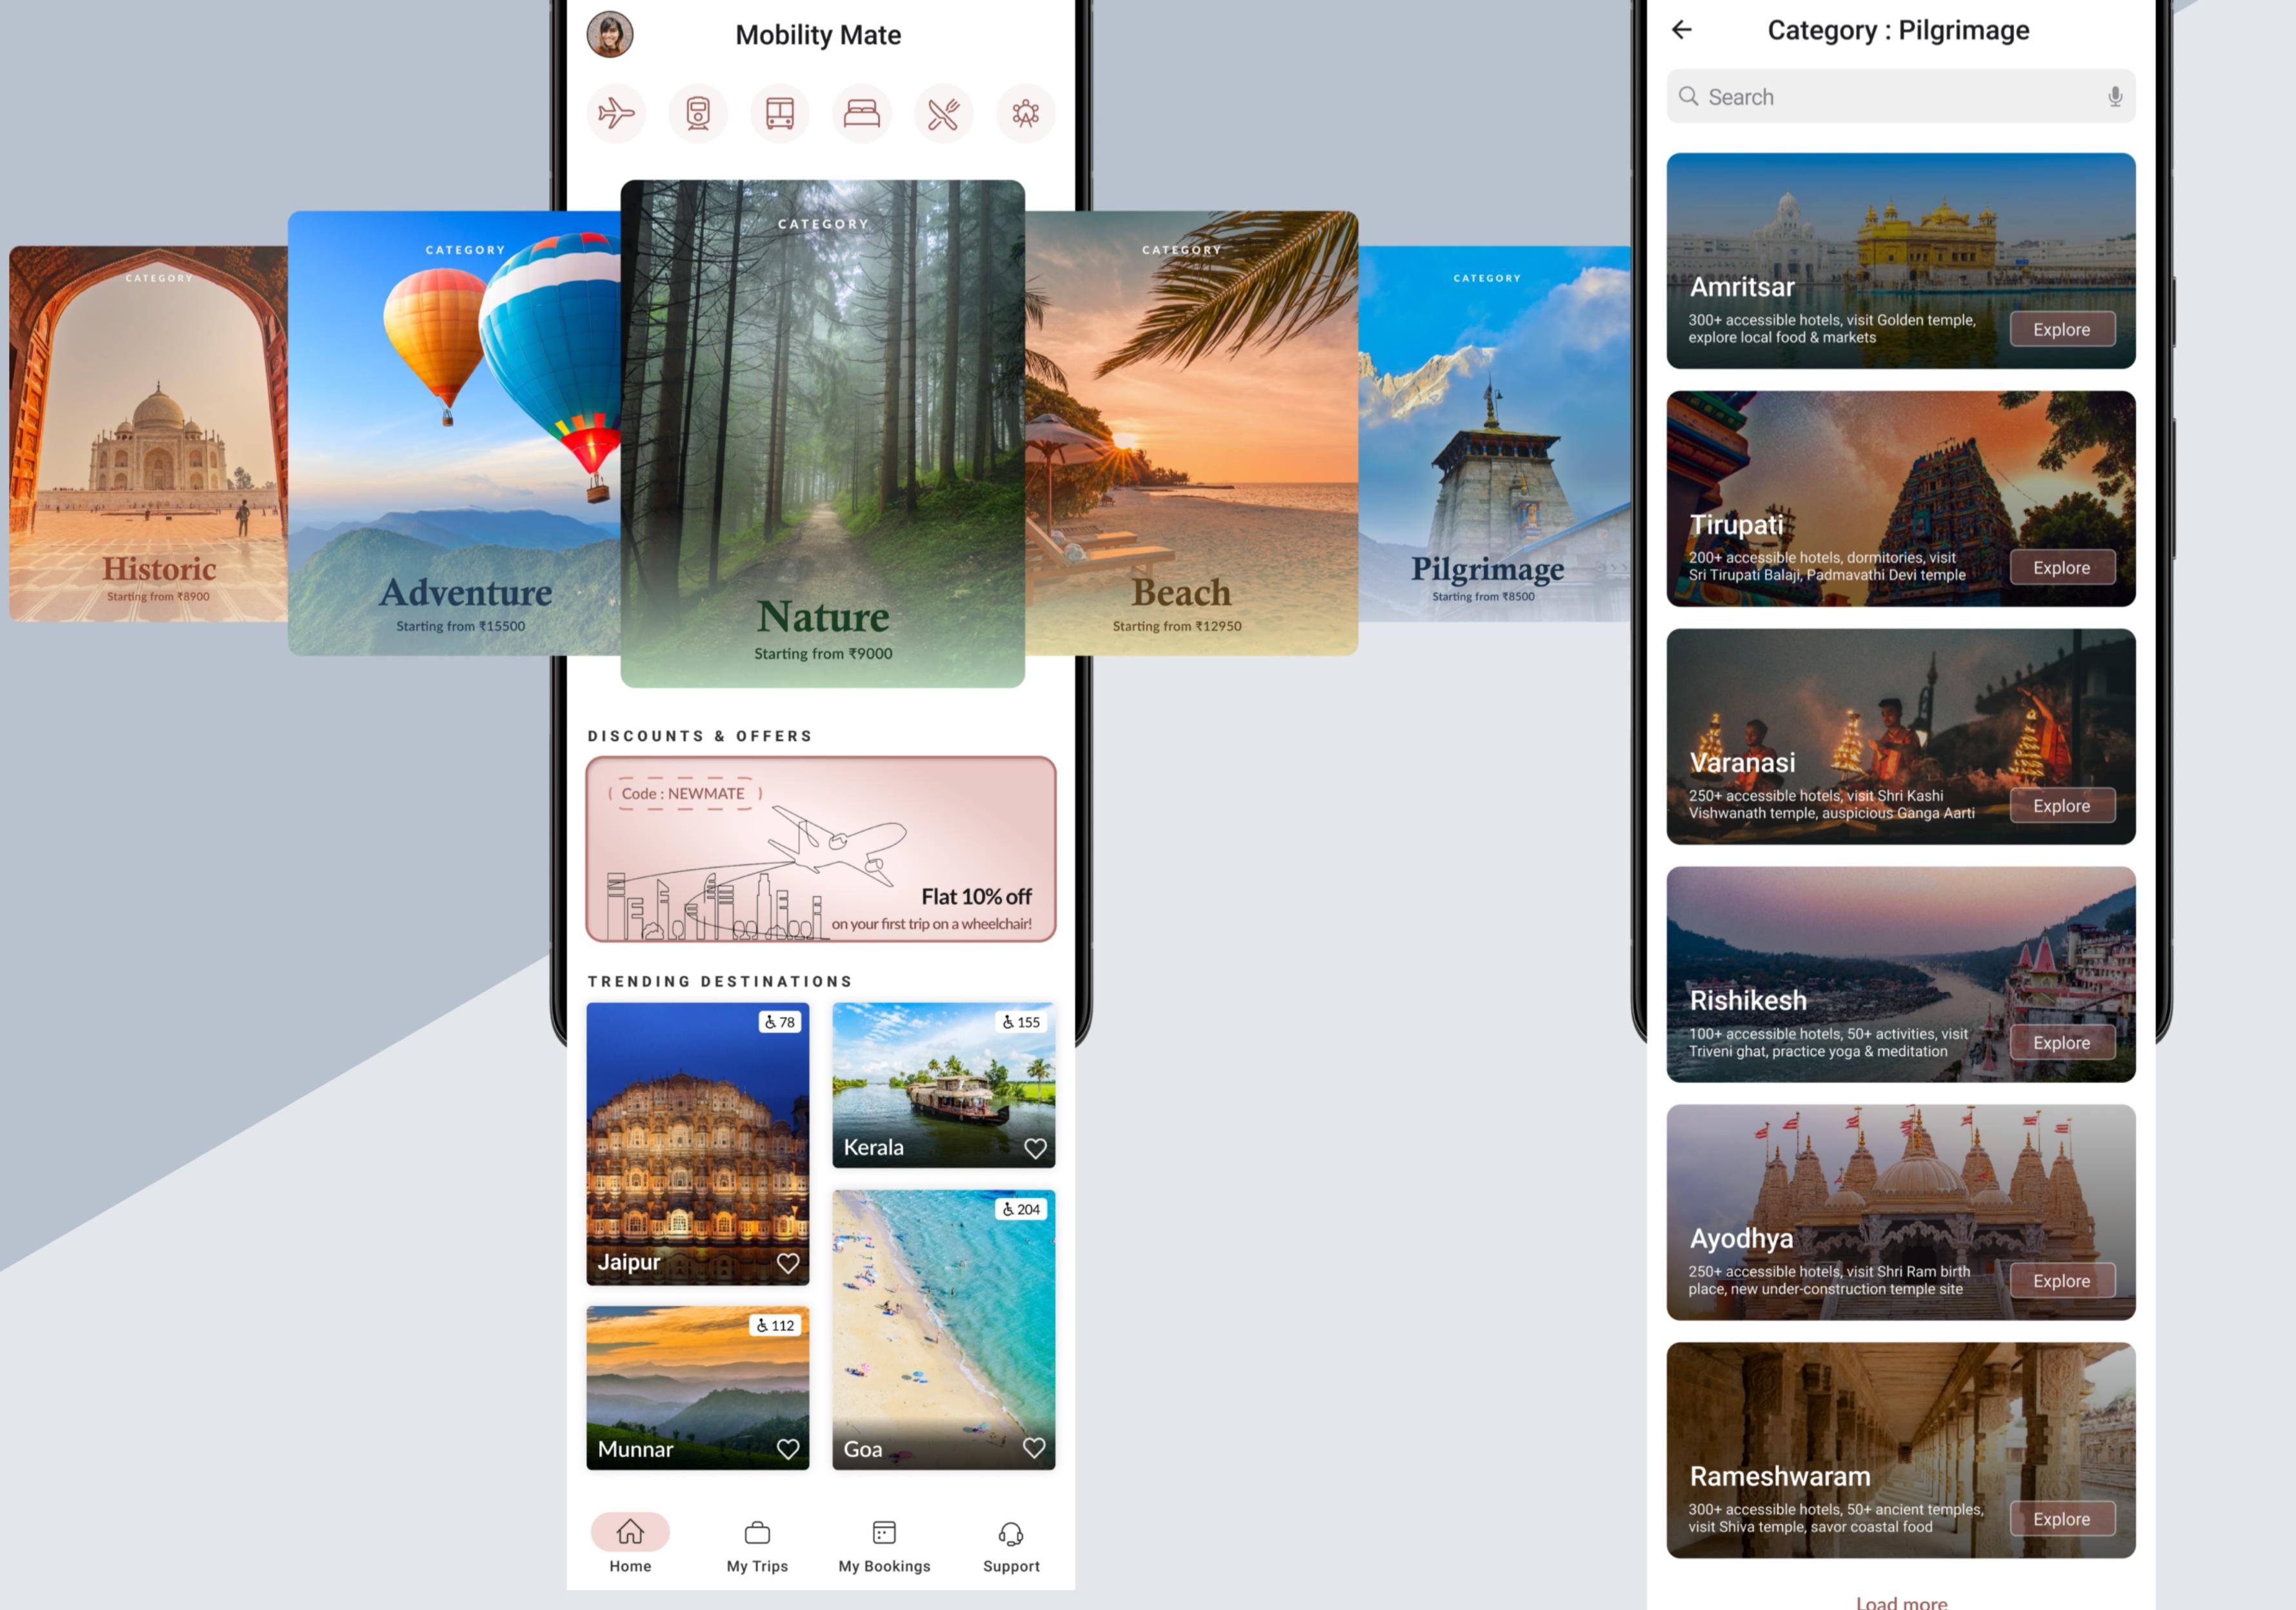

MAIN SCREENS

08

MAIN

Home screen

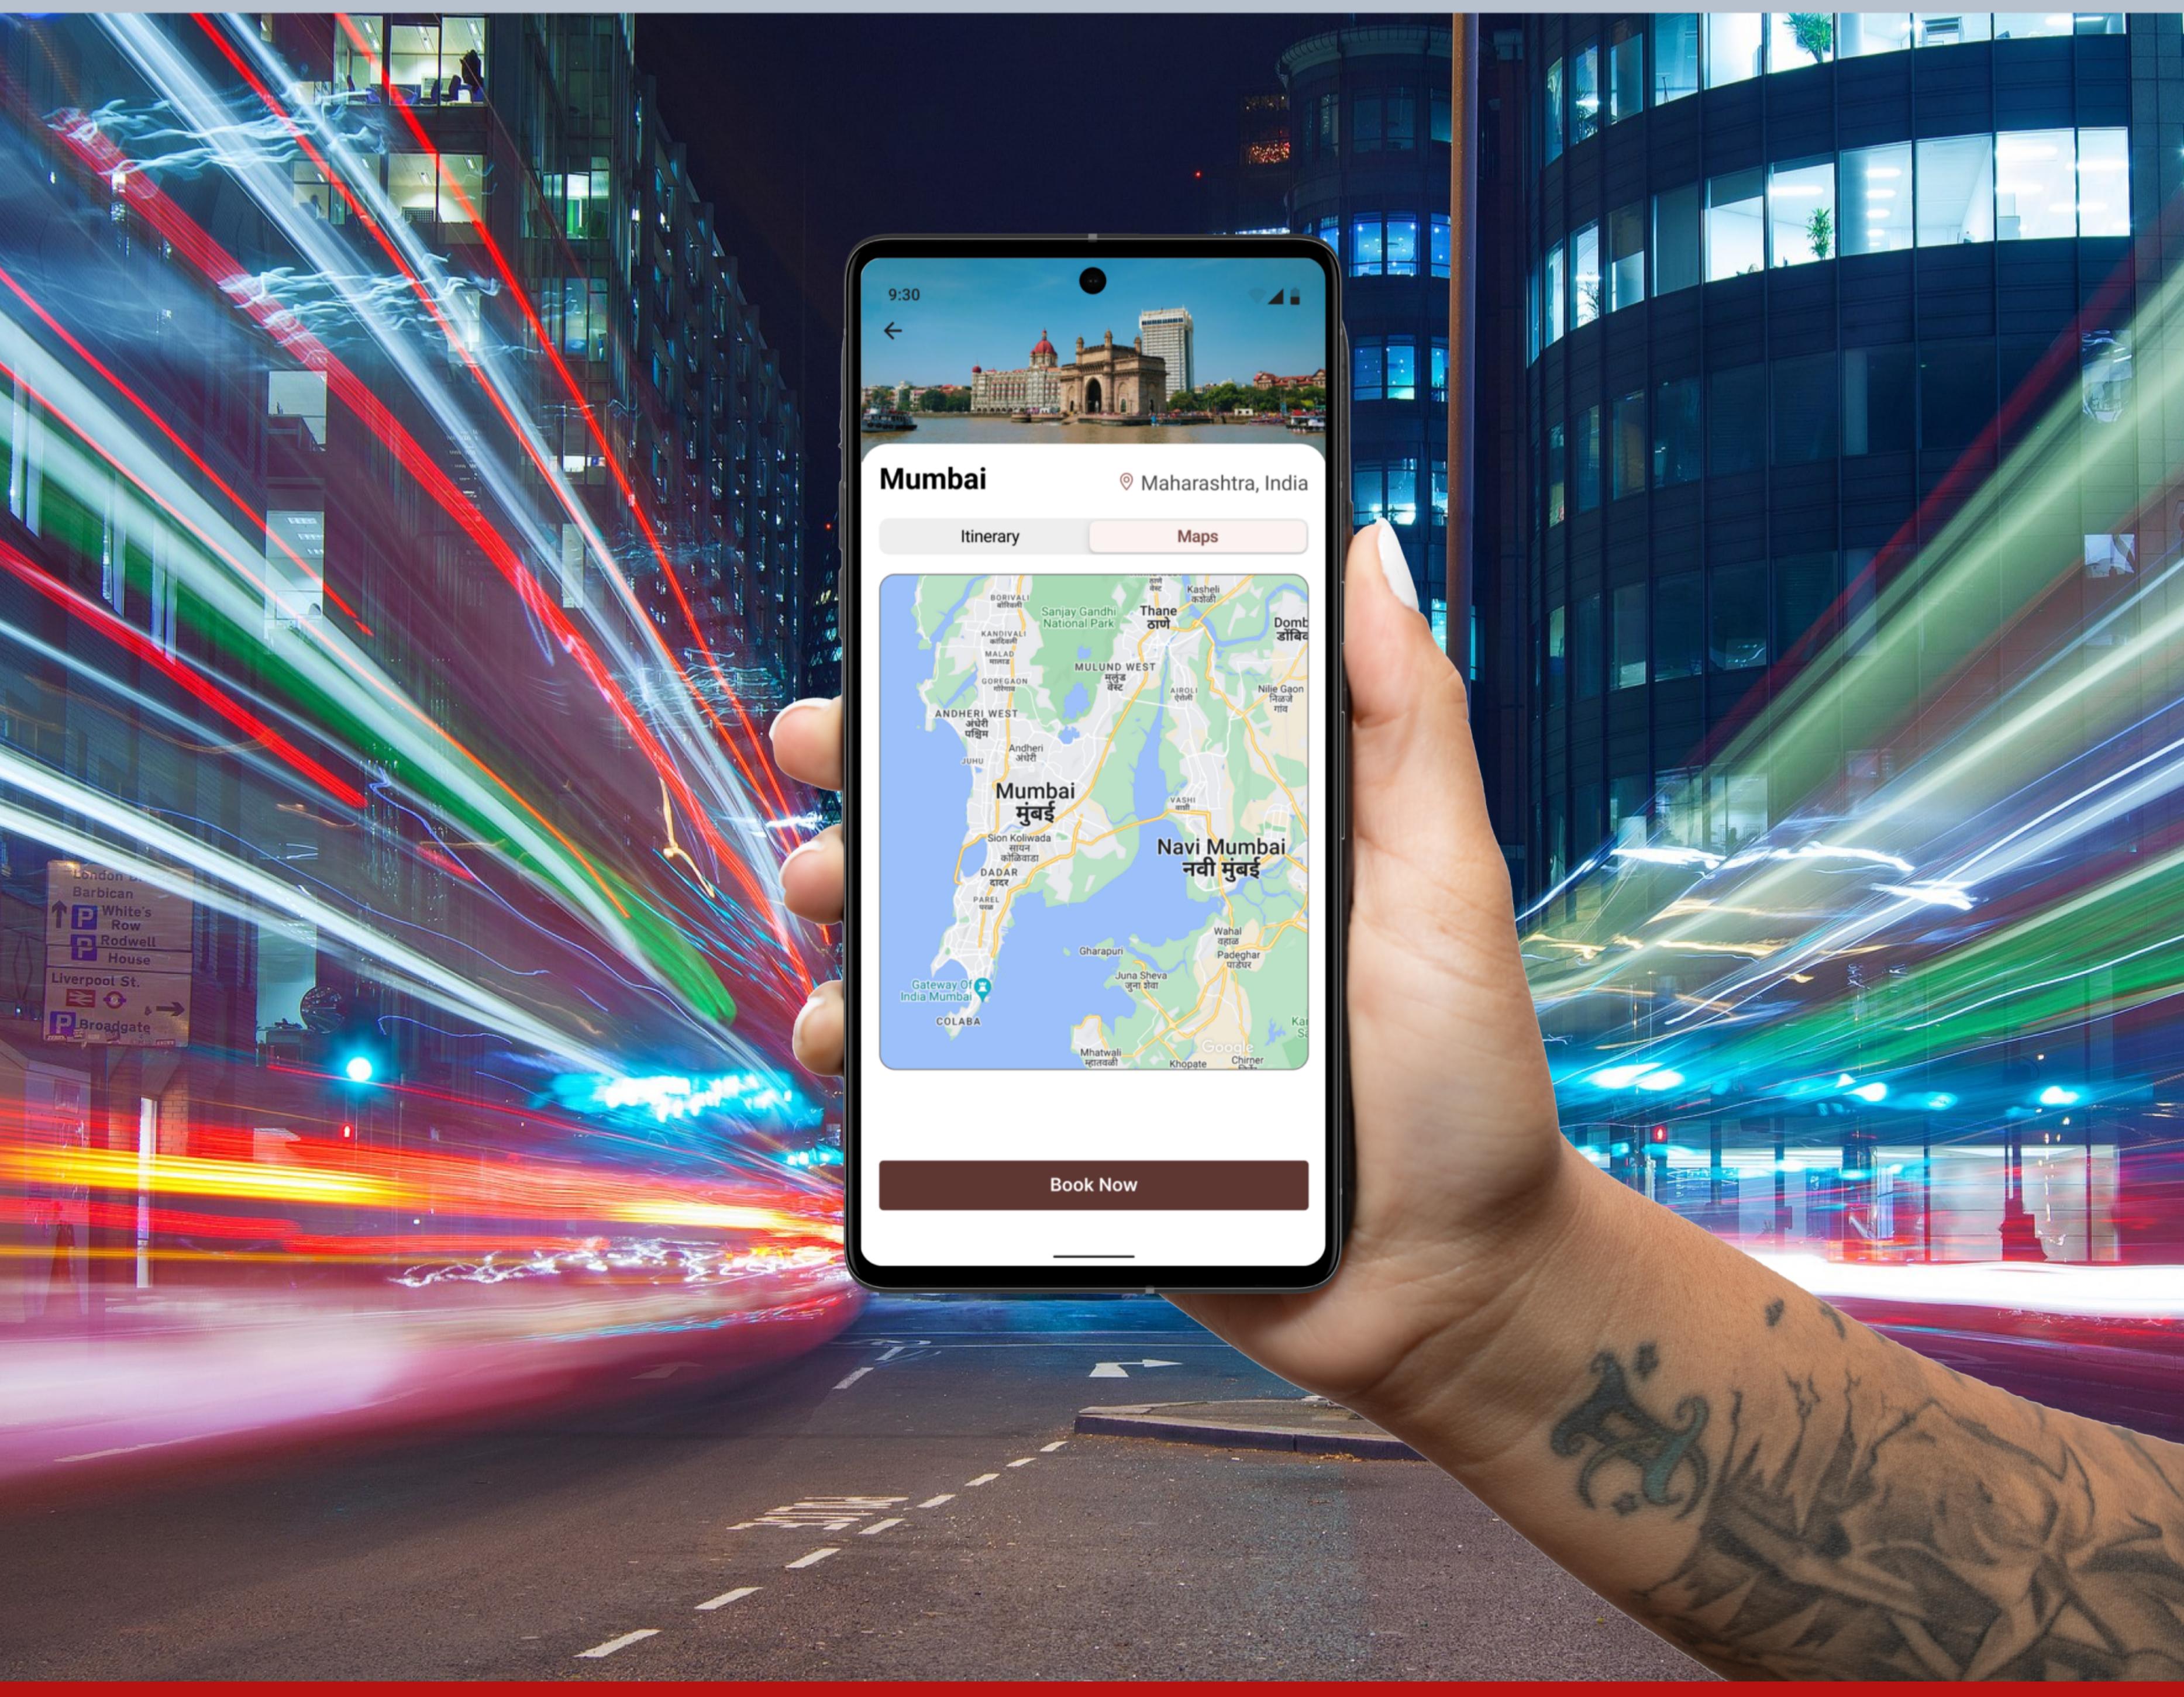

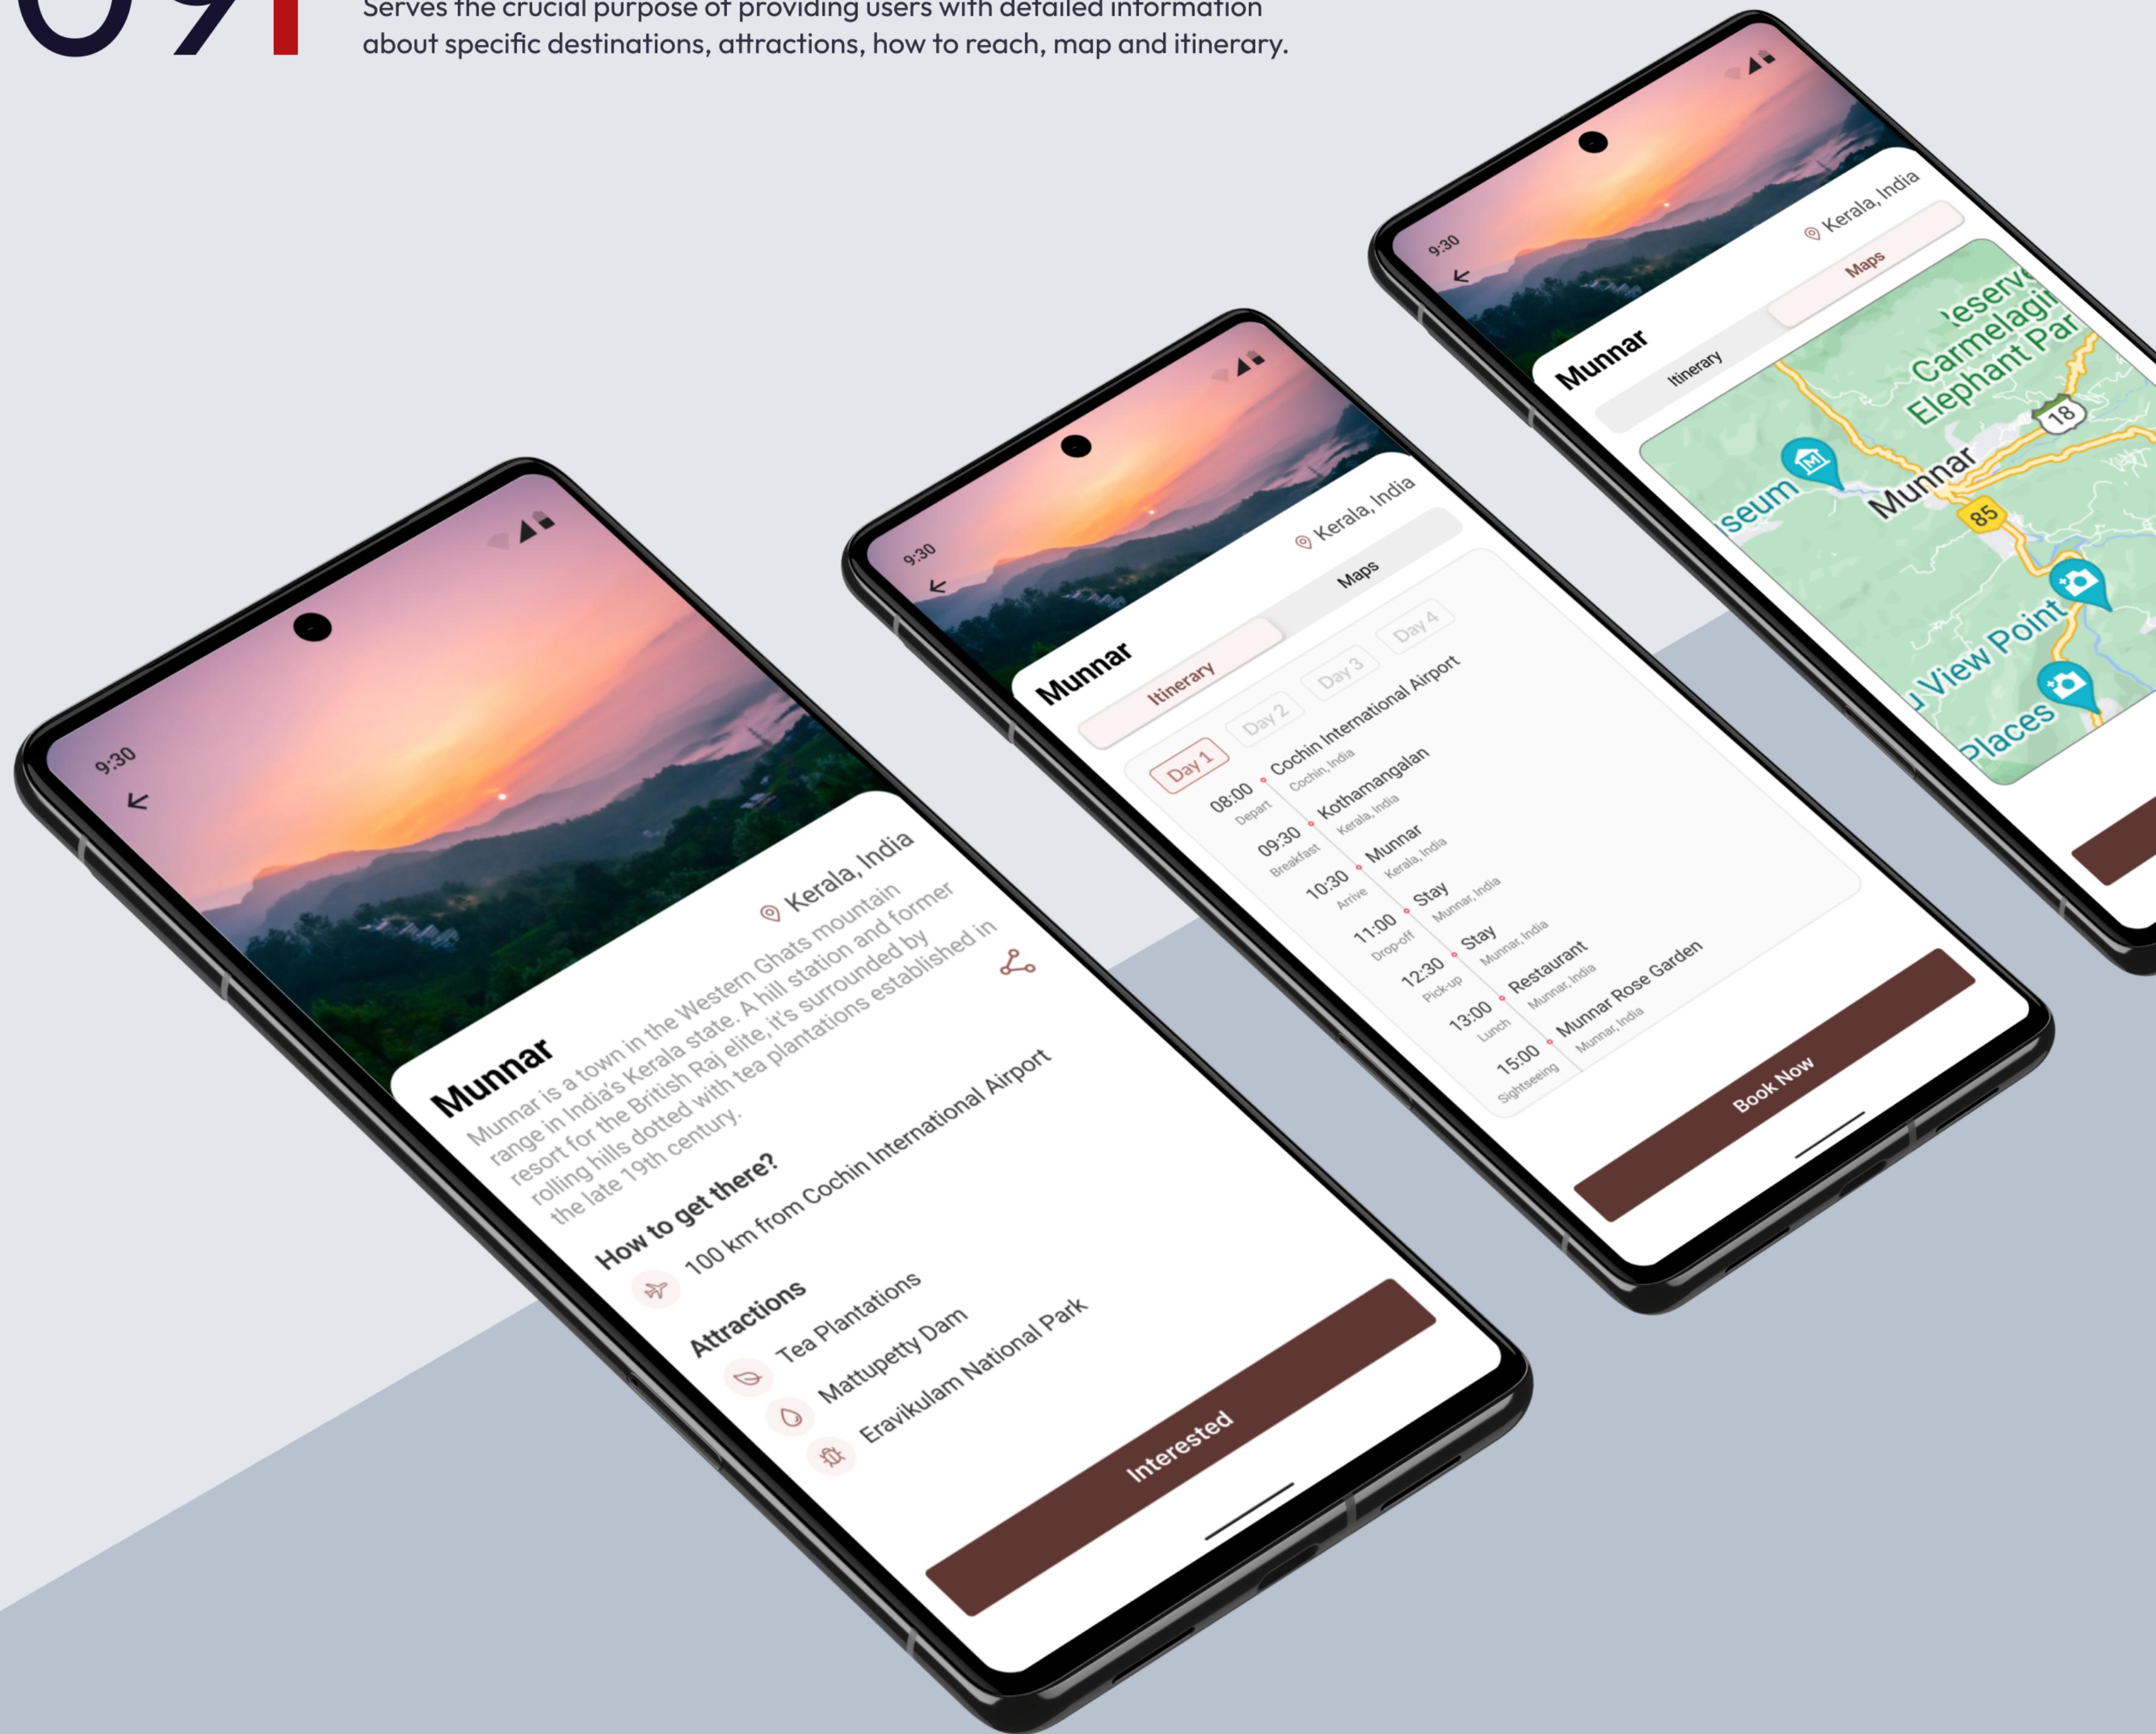

The navigation hub of the application showcasing key content and quick access to core features such as search, categories, offers, bookings, trips and support.

09

Destination

Serves the crucial purpose of providing users with detailed information about specific destinations, attractions, how to reach, map and itinerary.

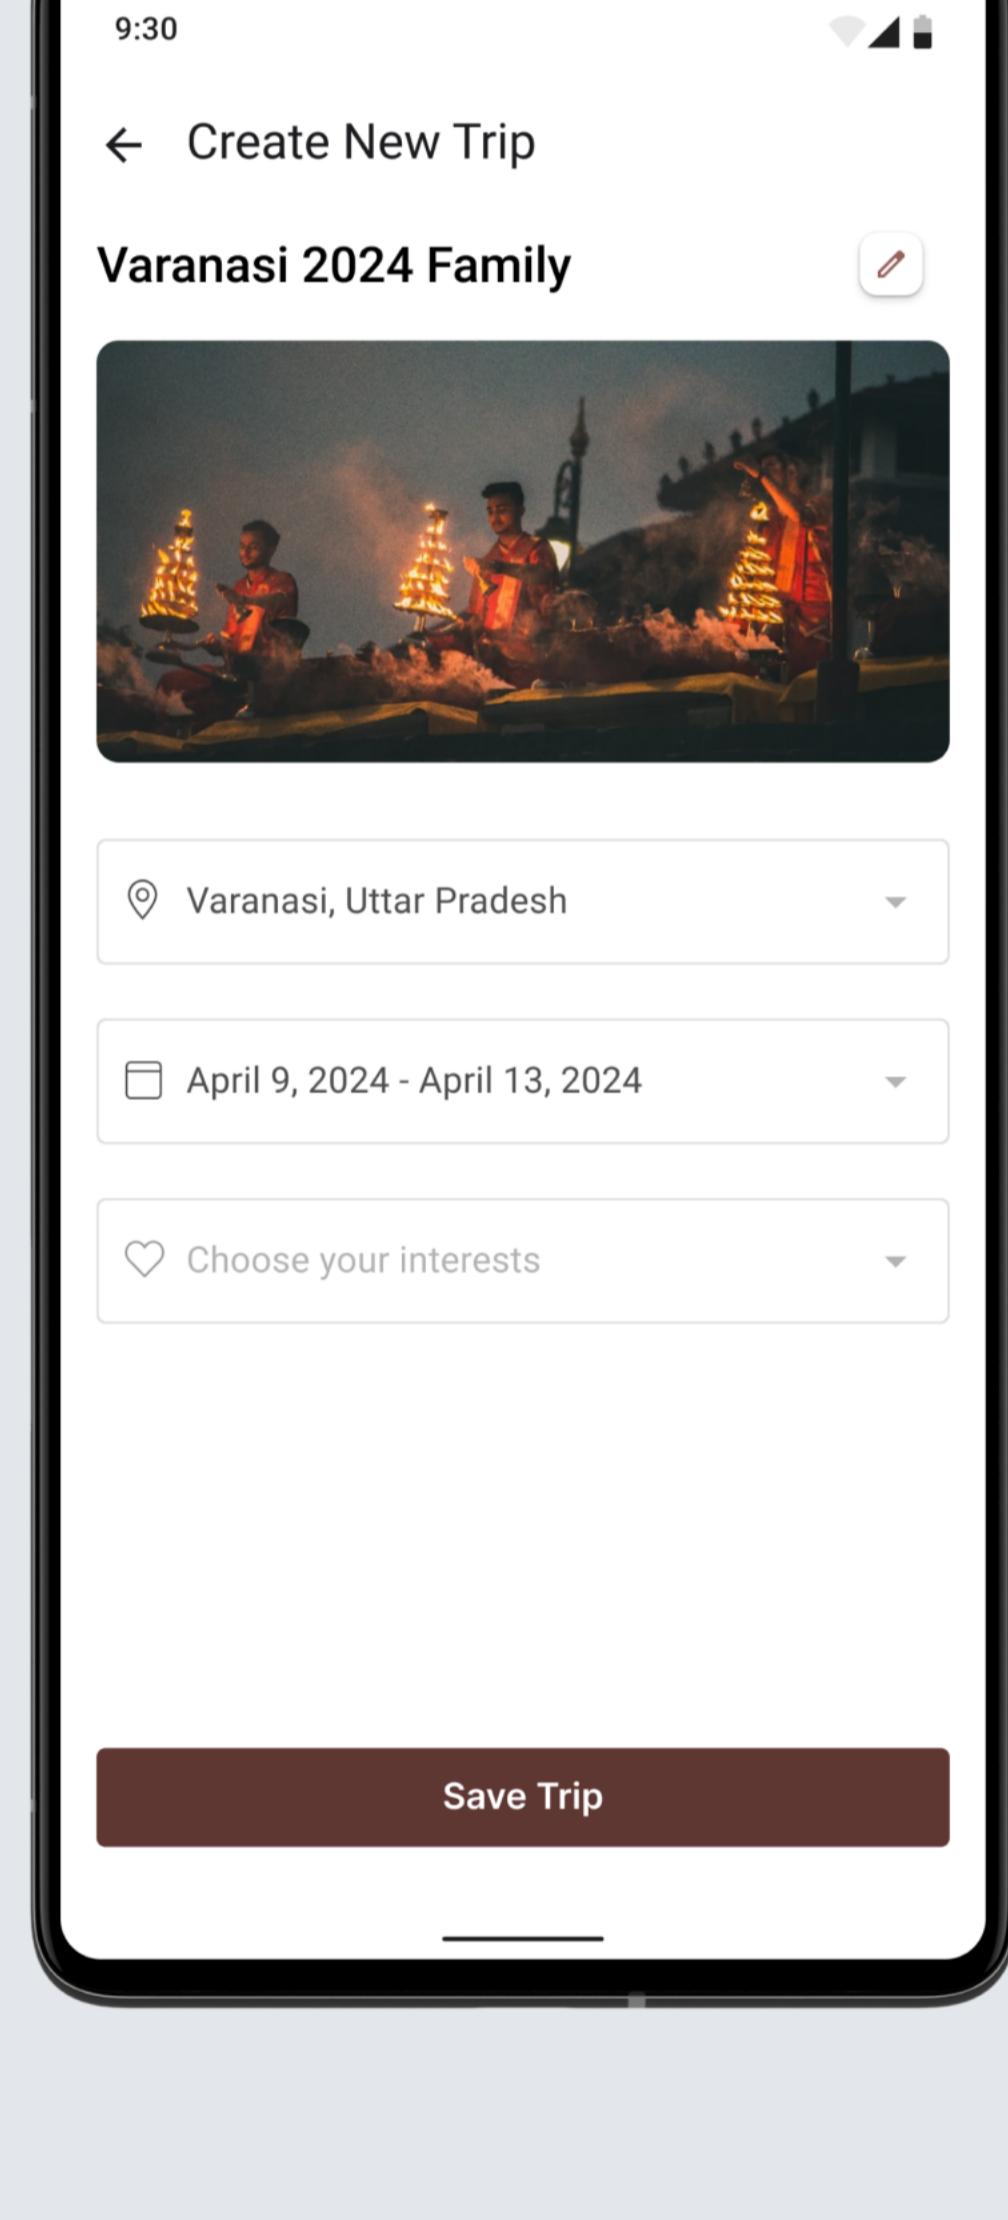

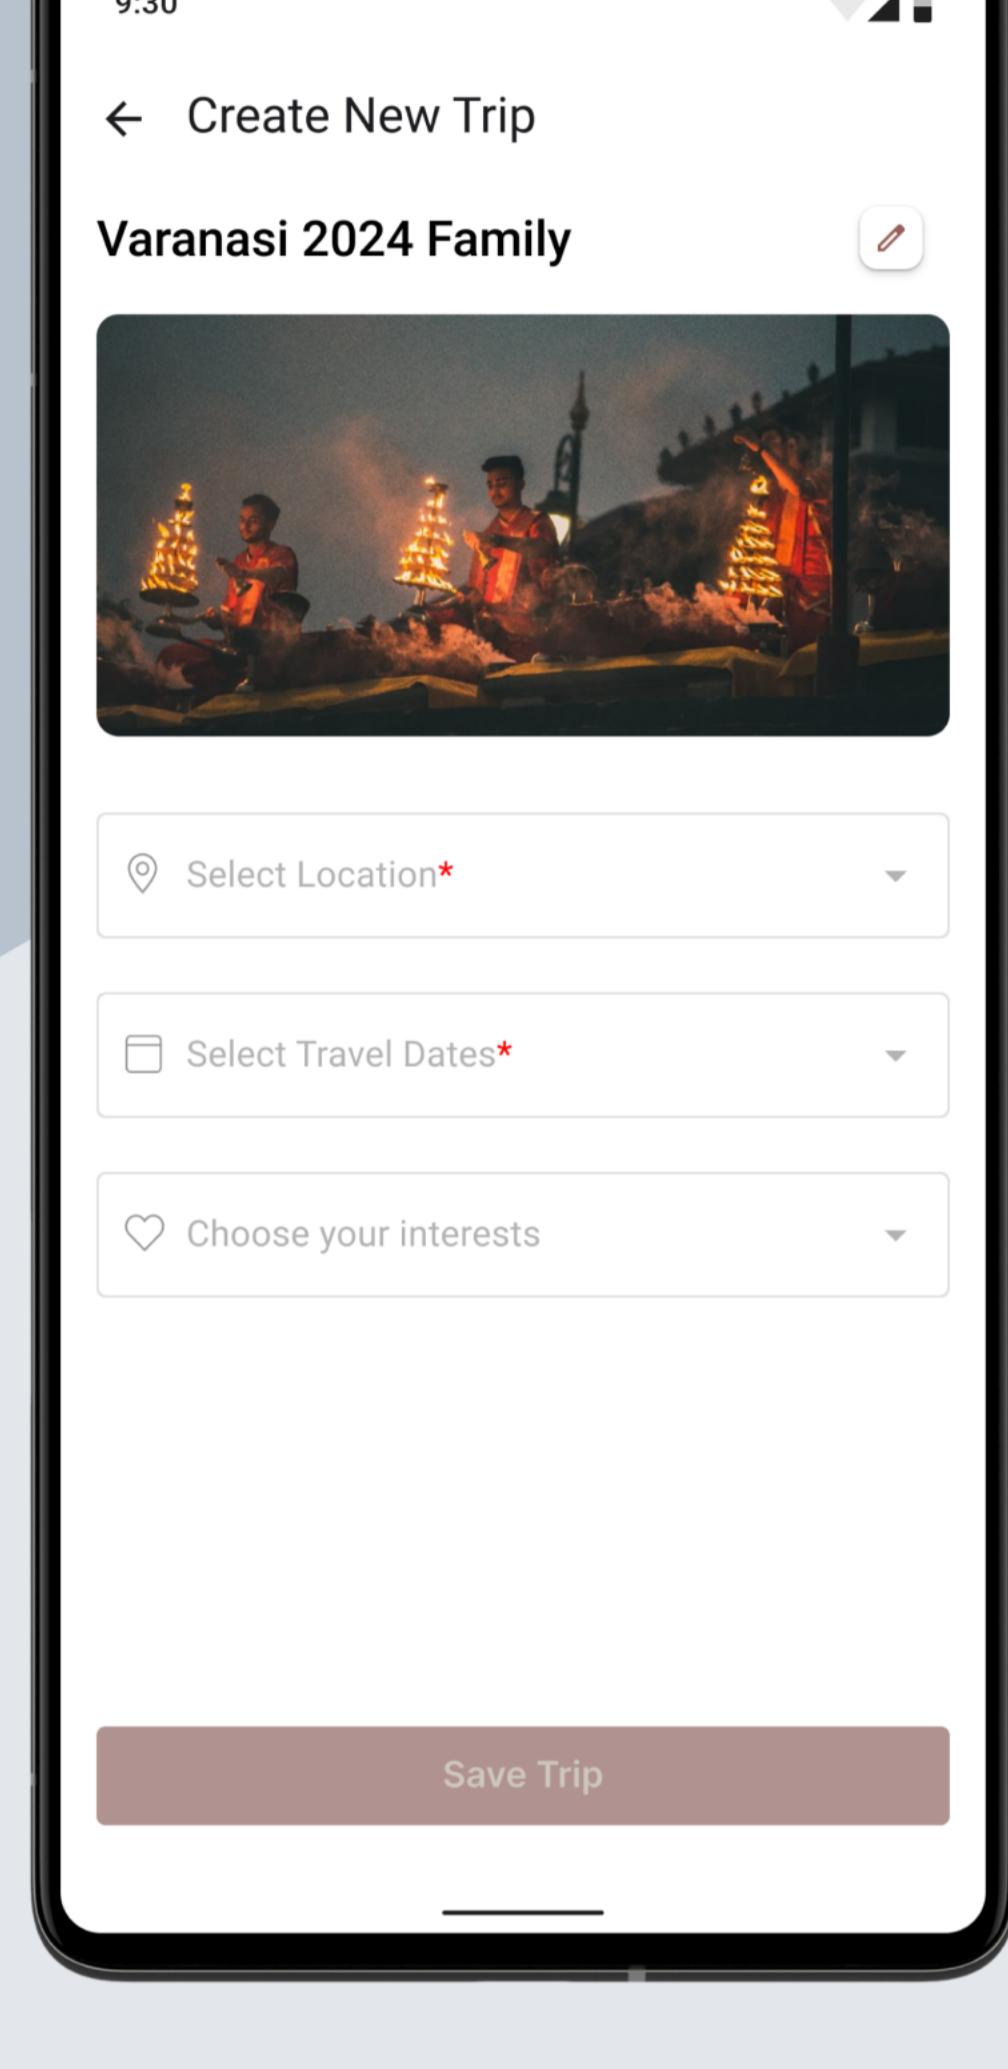

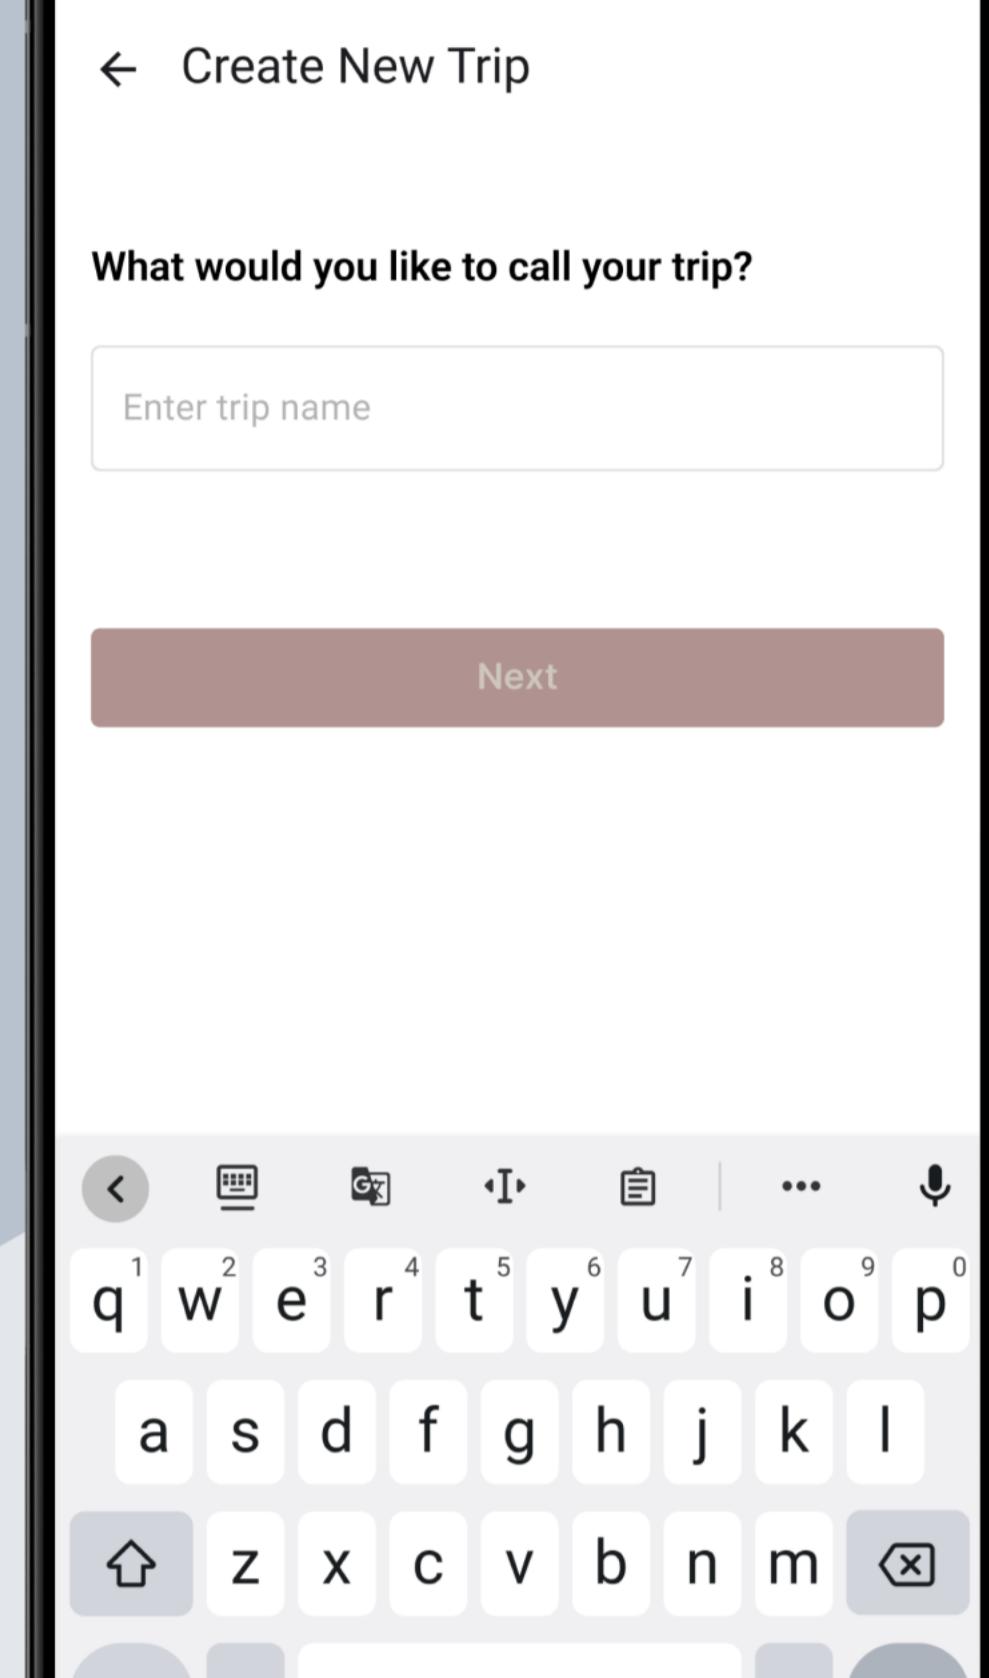

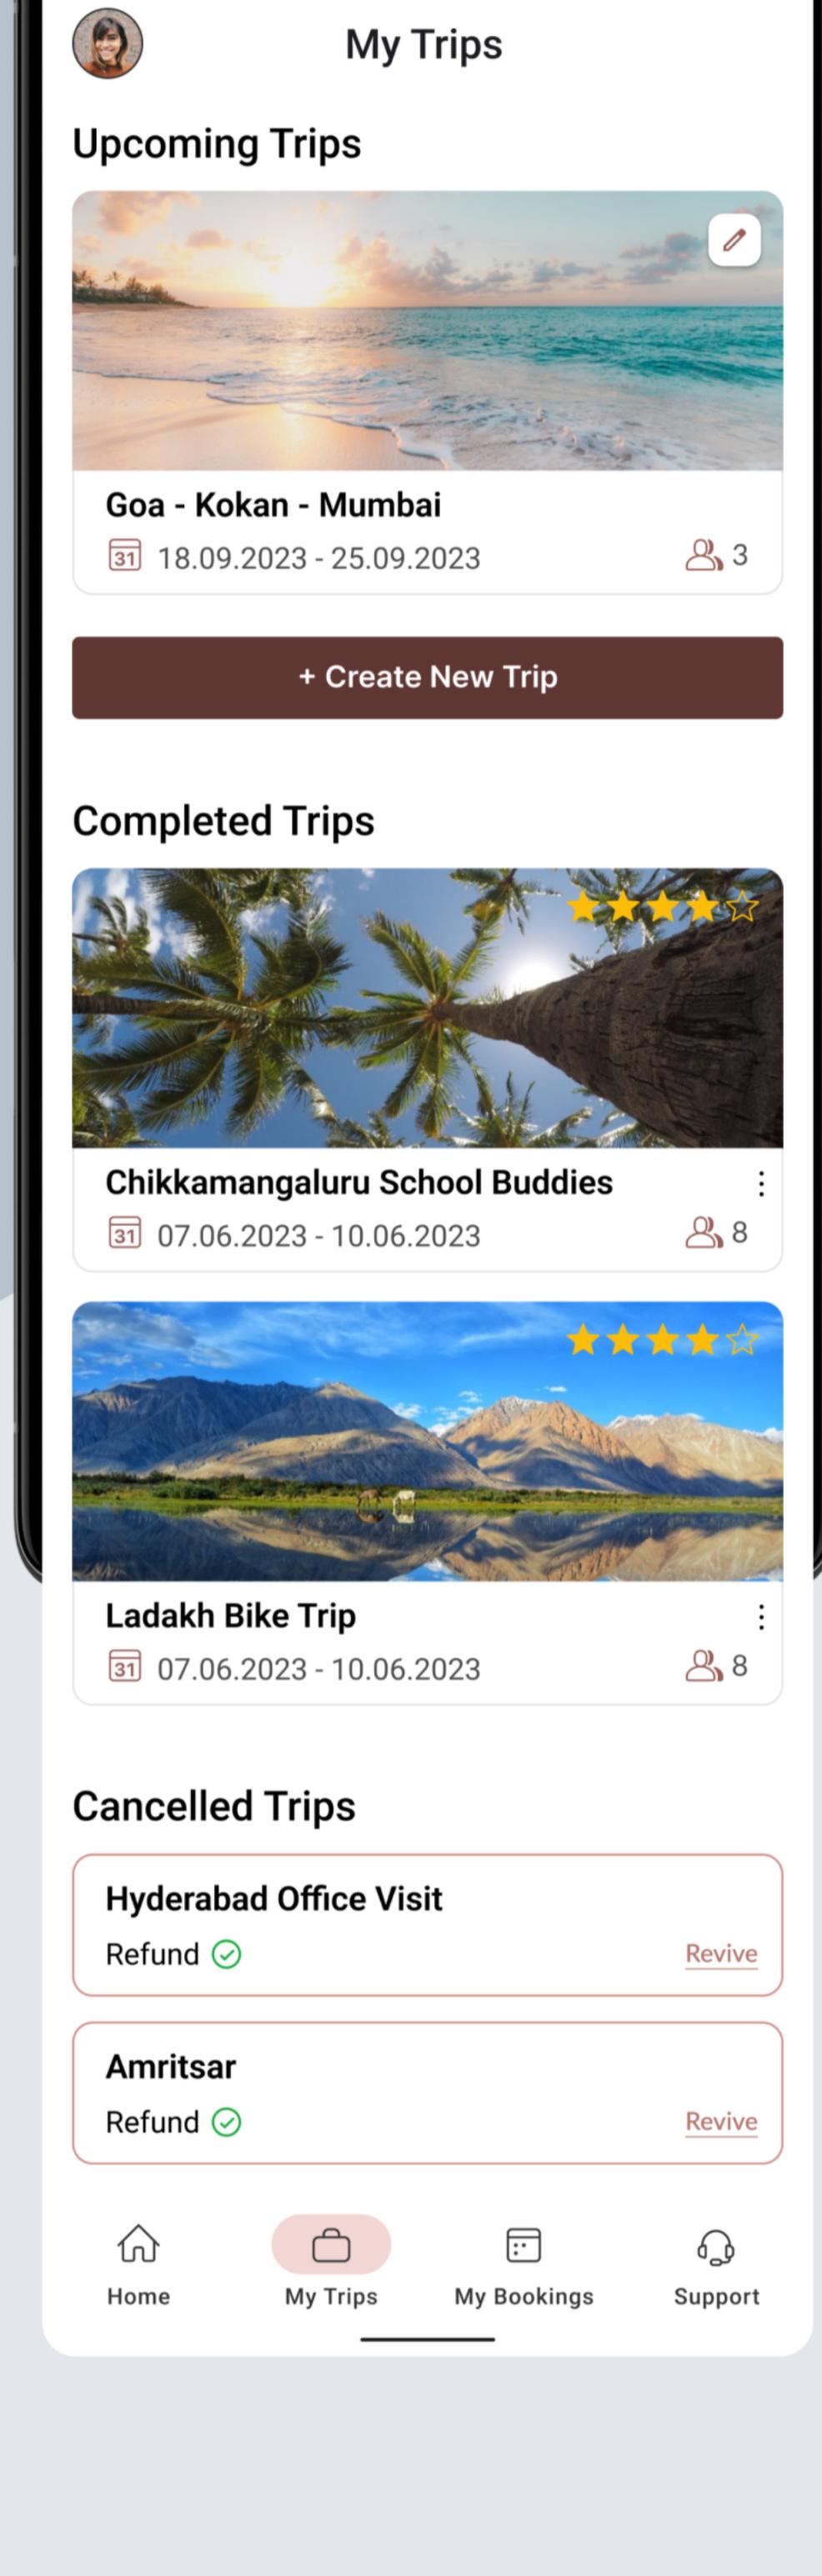

TAB BAR SCREENS

10

My Trips

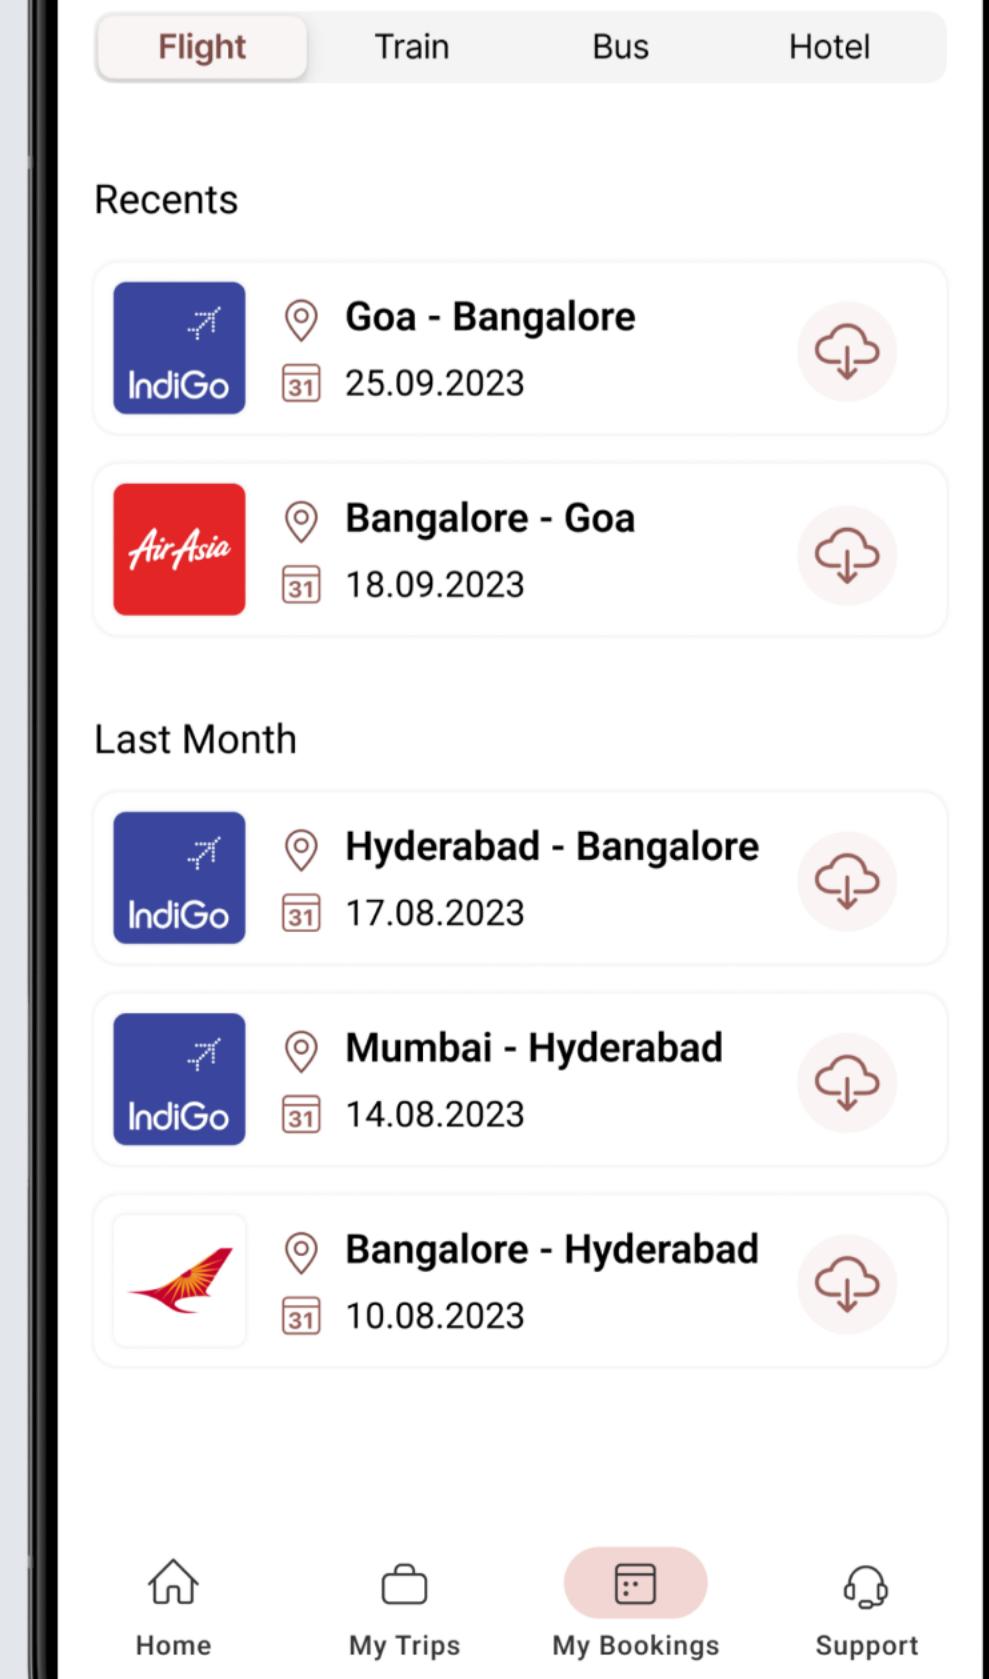

Showcases your upcoming (planned) trips, completed trips and cancelled trips along with edit plan, rate trip and revive options respectively.

11

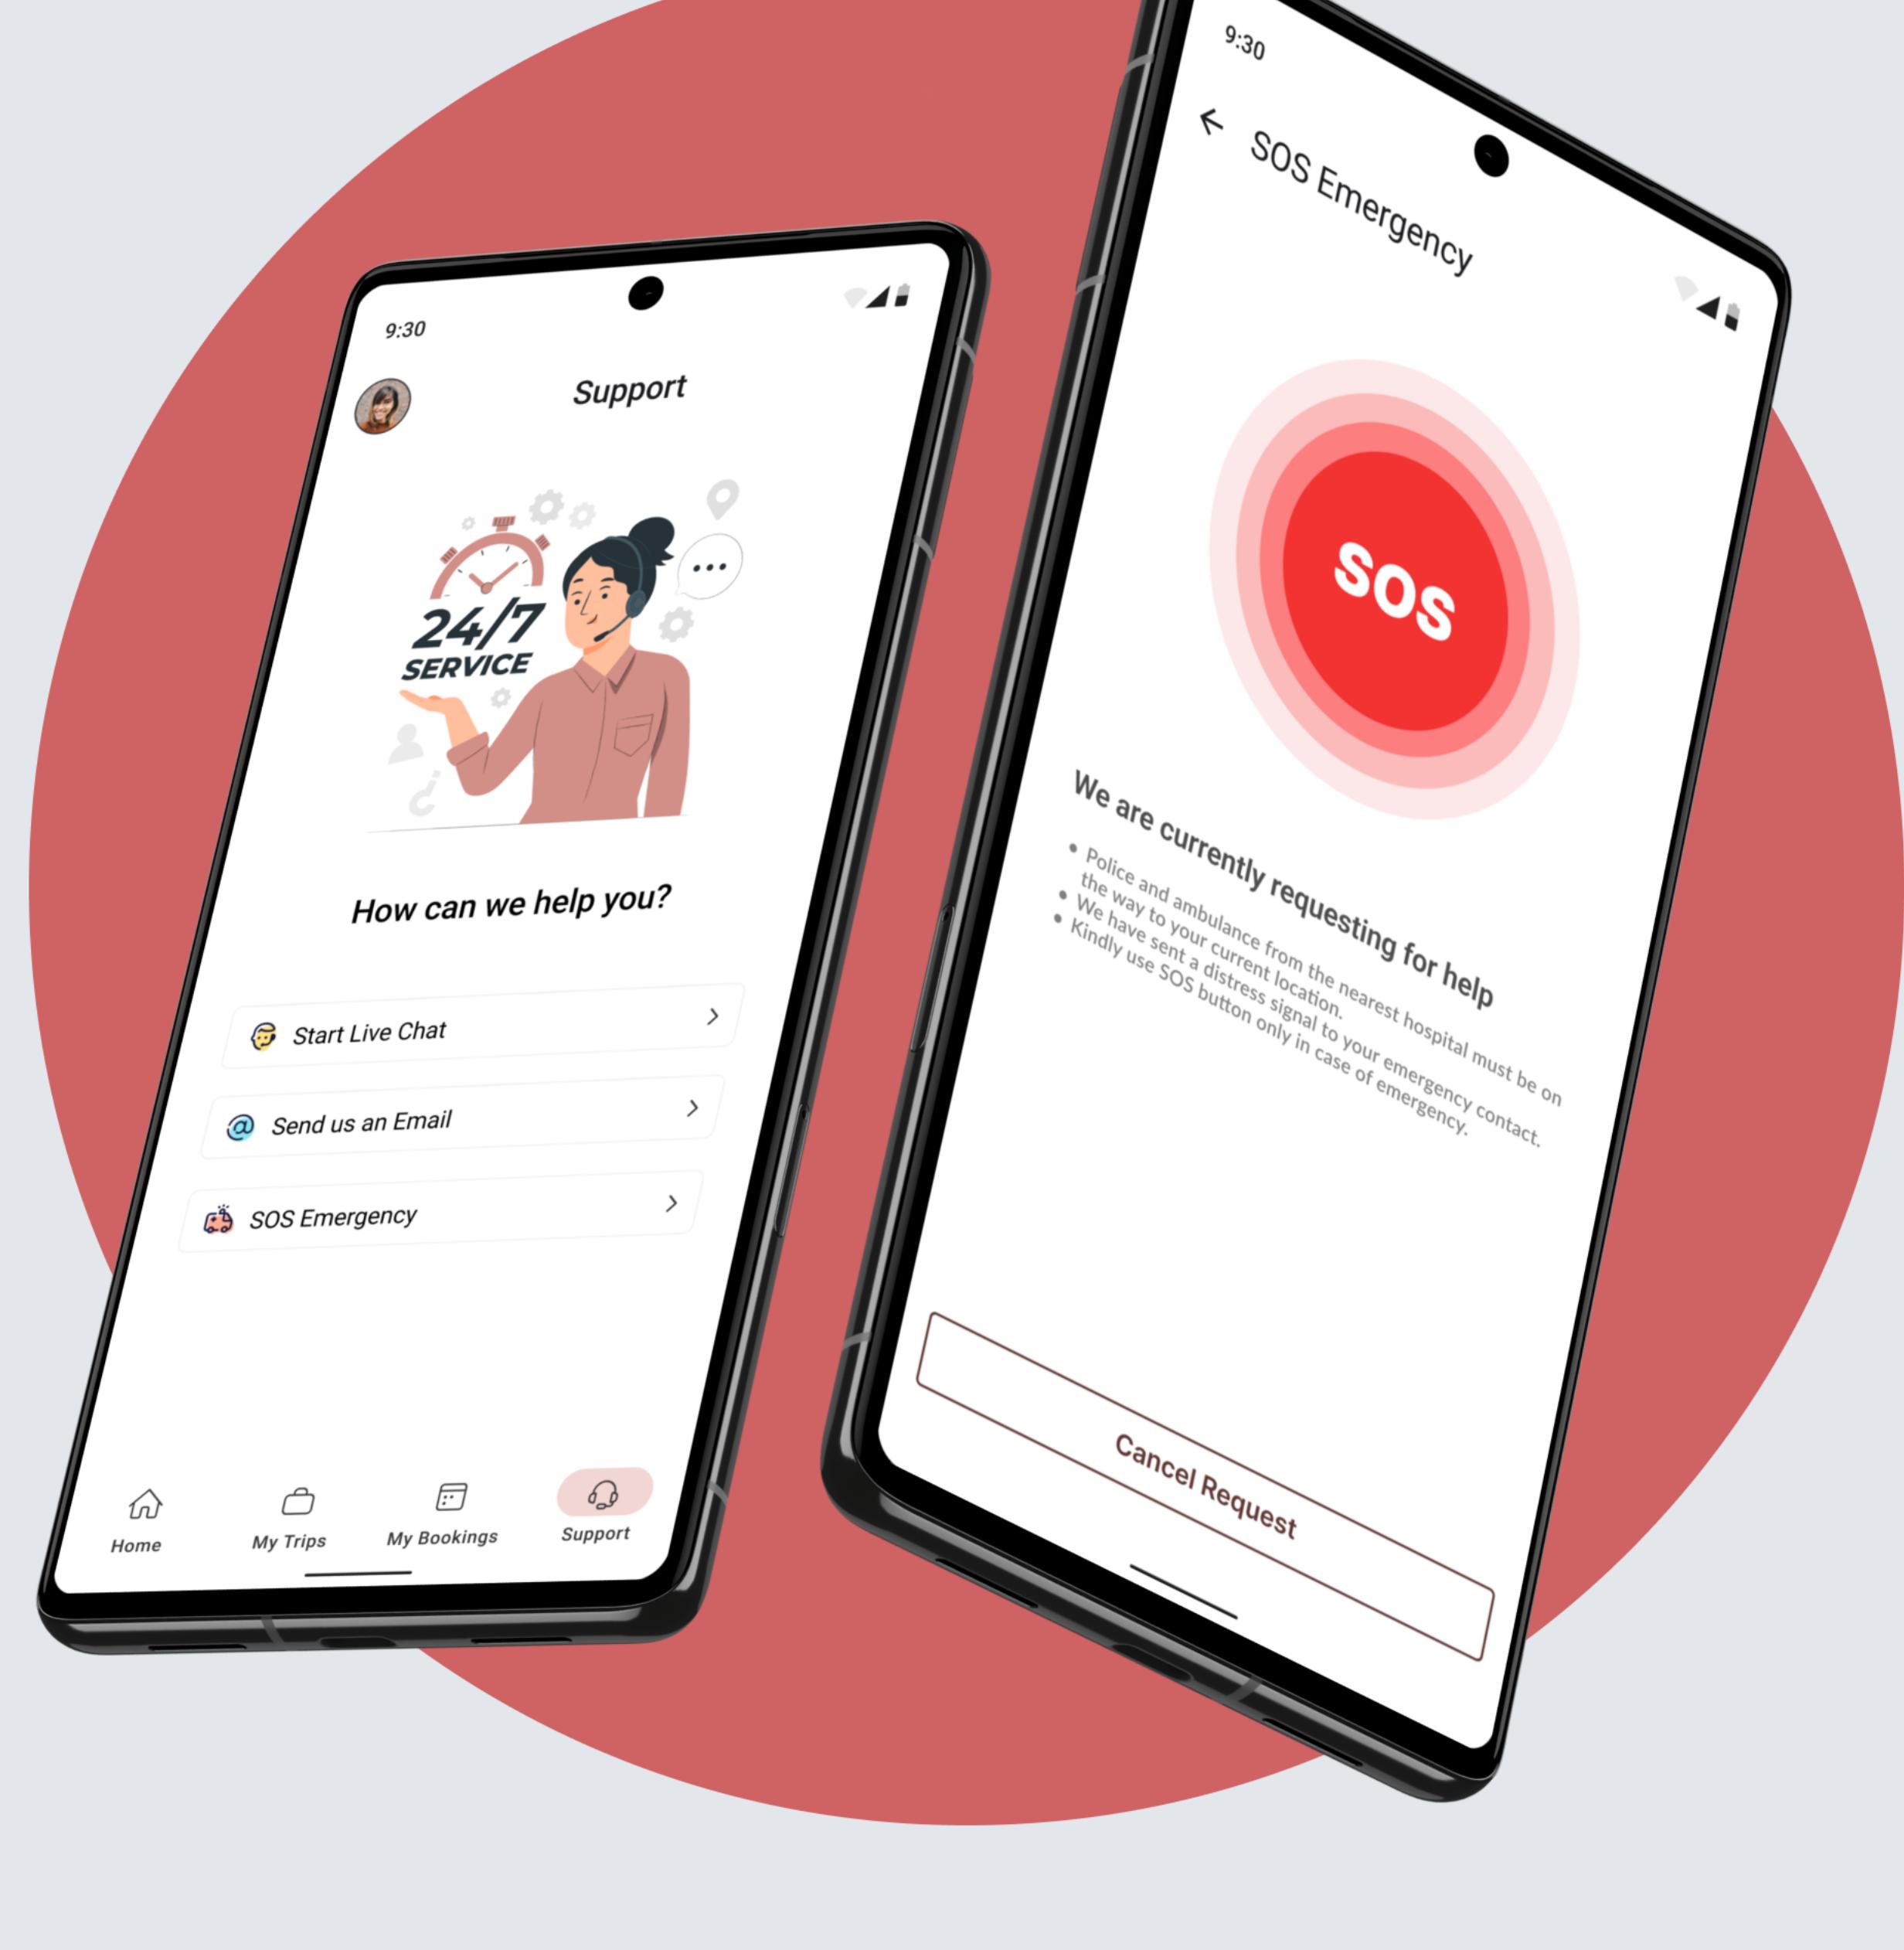

My Bookings

Here, you can view the list of your flight, train, bus and hotel bookings and can download the ticket/receipt.

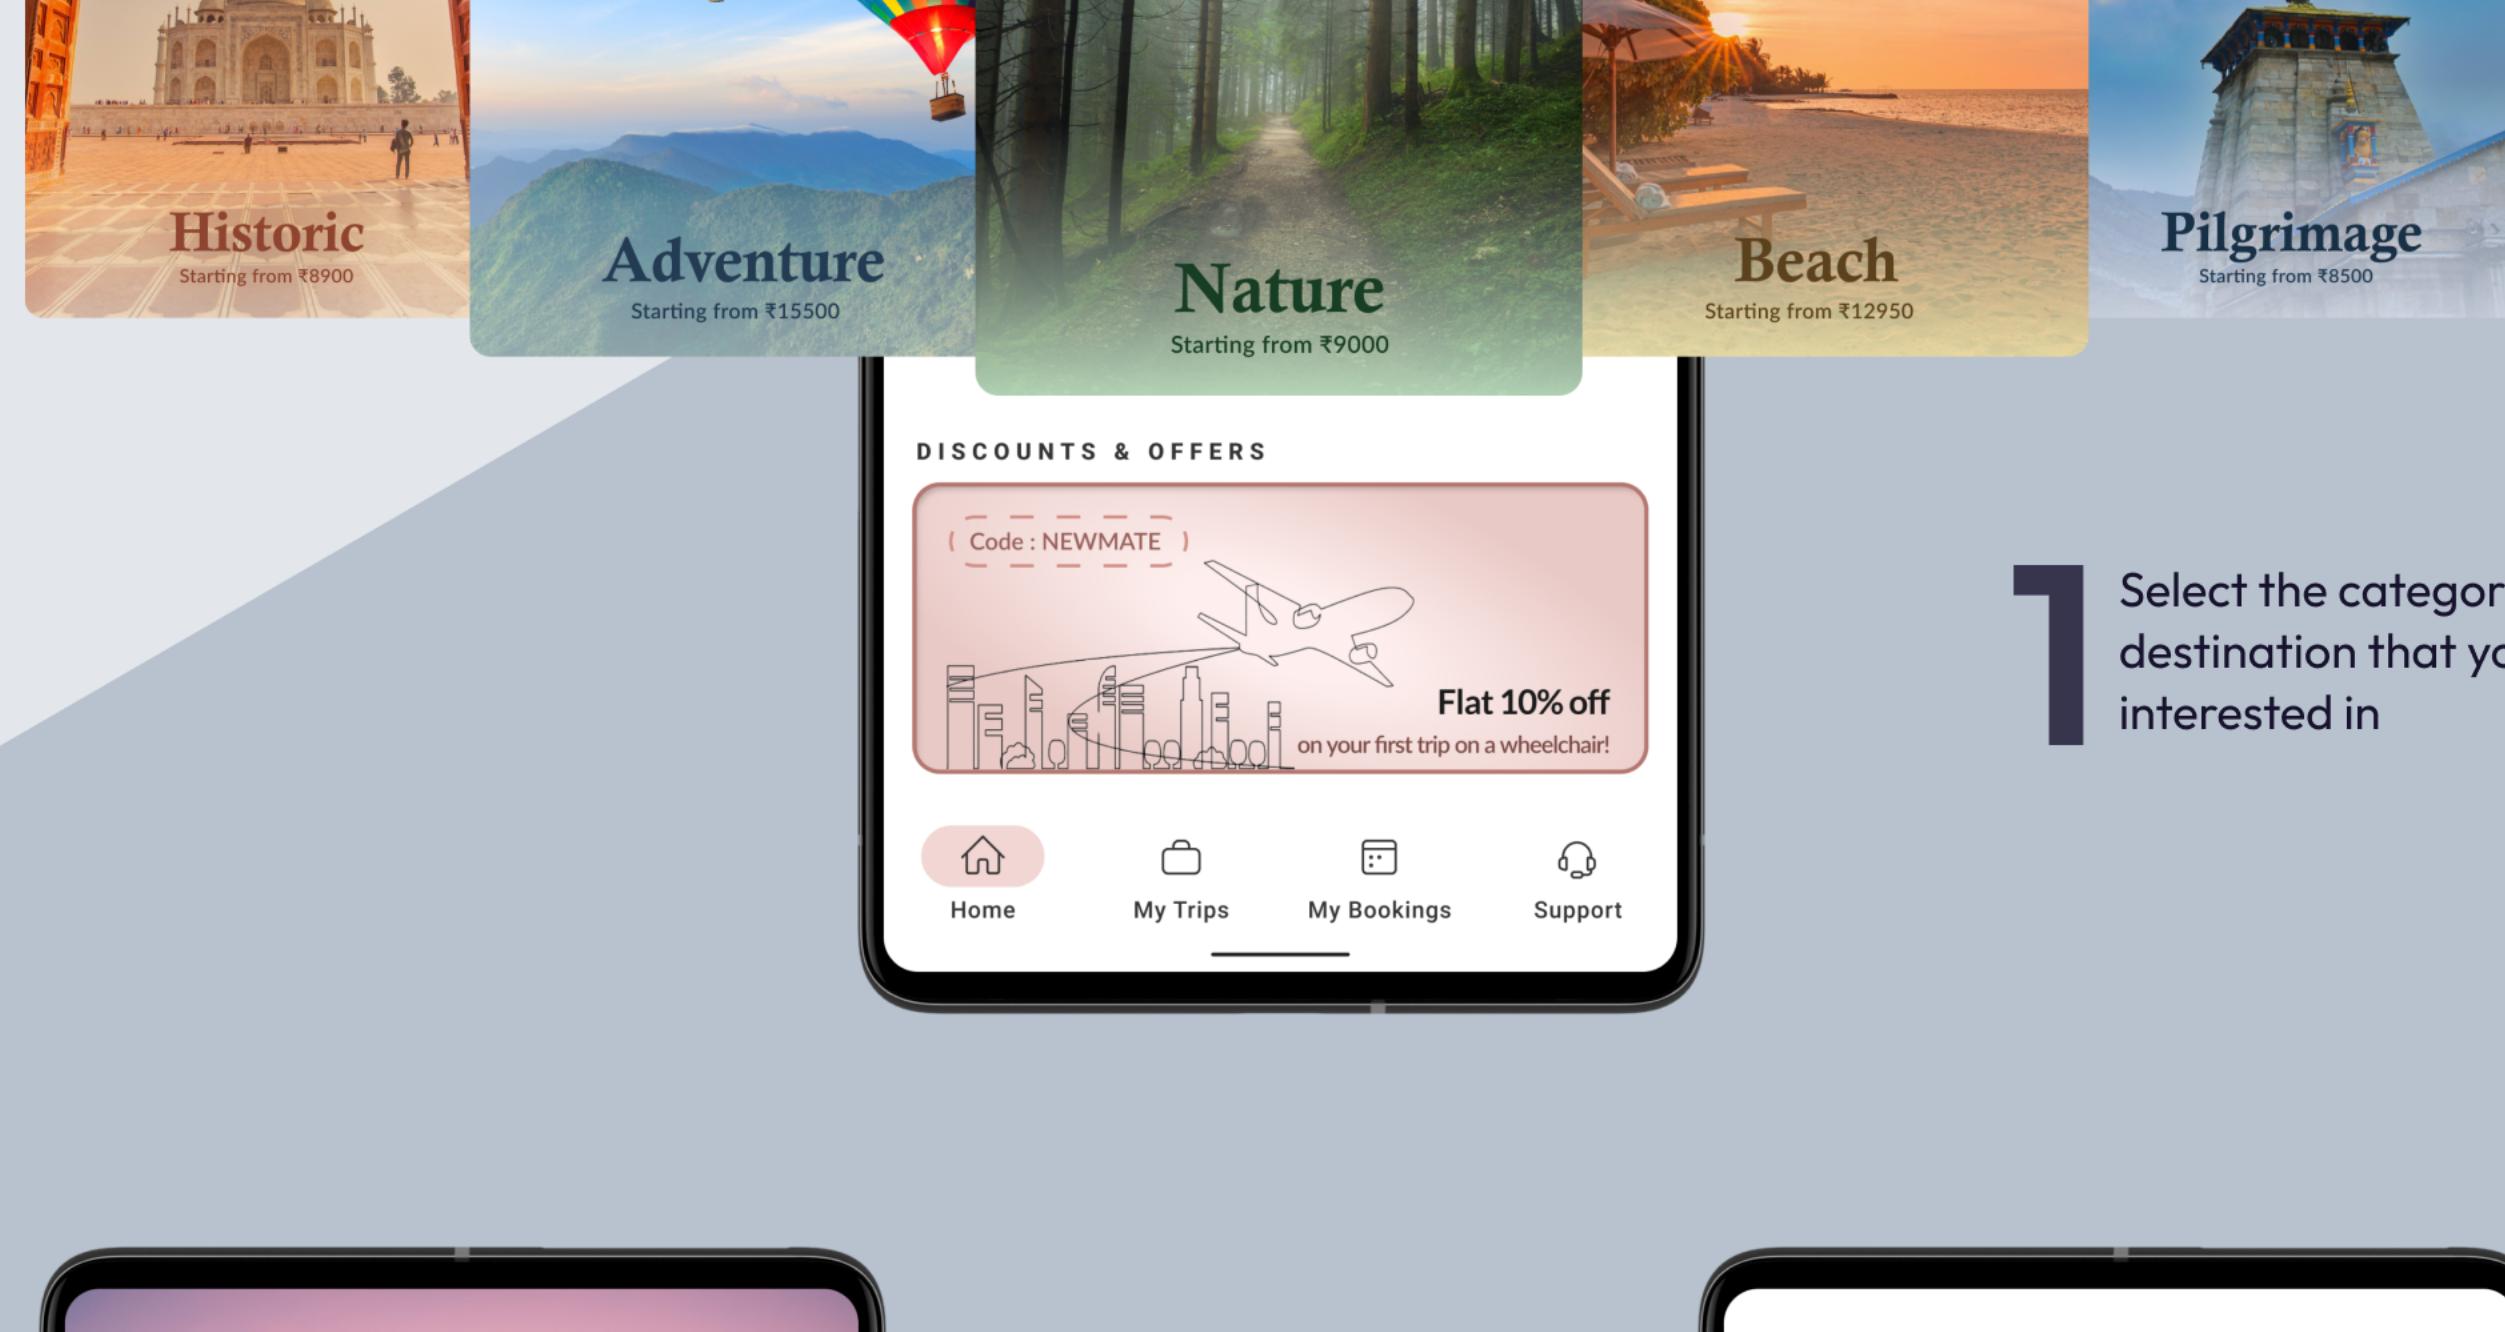

Support

Get assistance through live chat, send an email to the customer support or use the SOS feature for quick action during an emergency.

APP FLOW

1 Select the category of destination that you are interested in

2 Explore destinations using search or click on the suggested ones

3 Know more about the destination, suggested itinerary and location

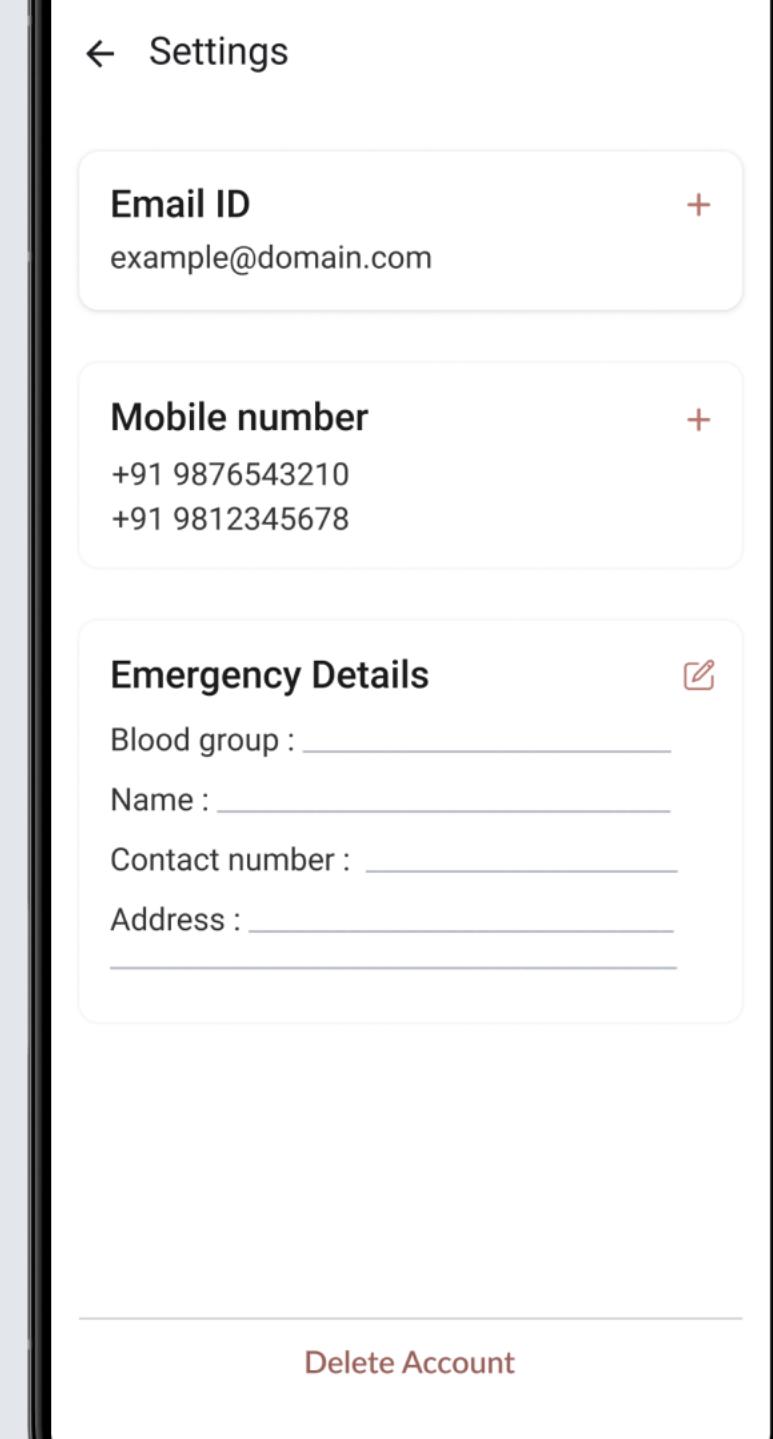

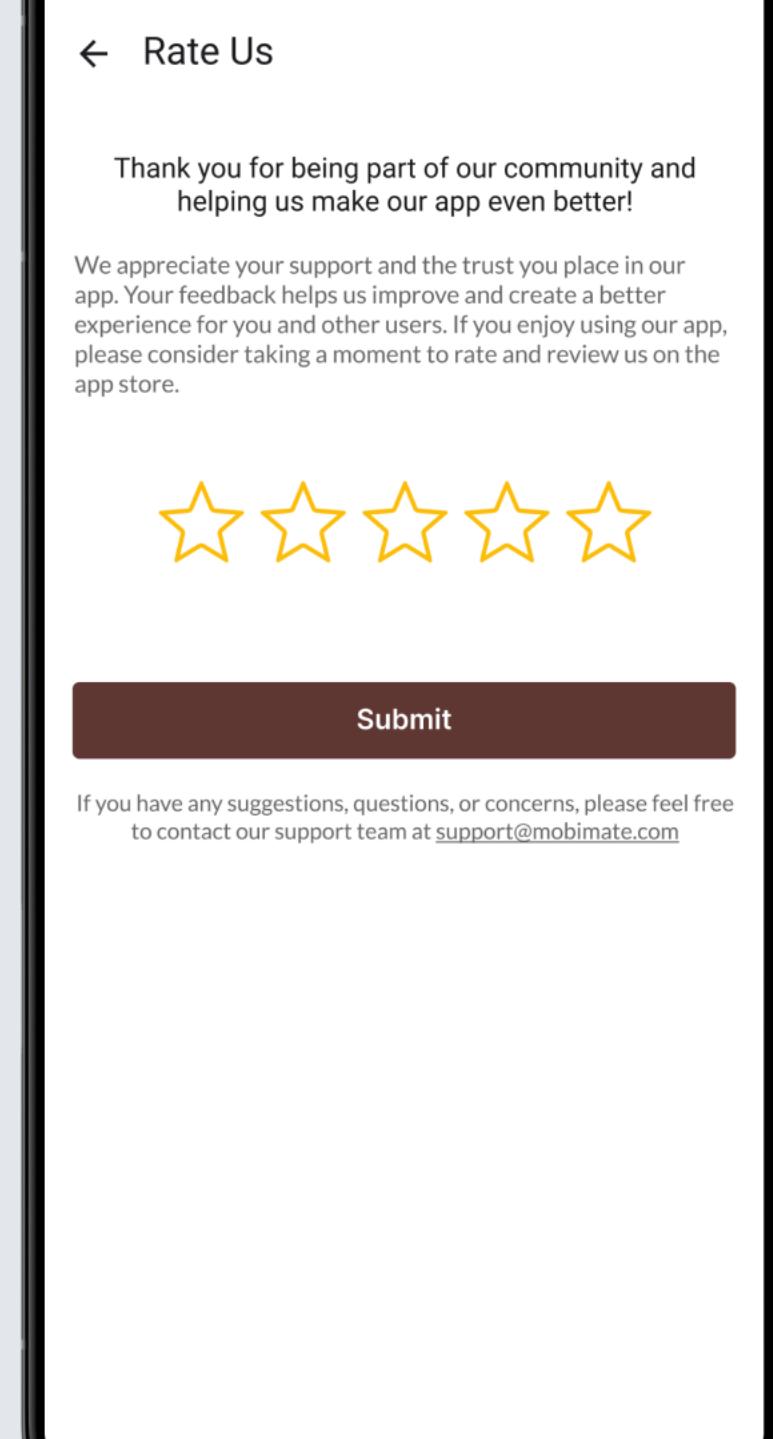

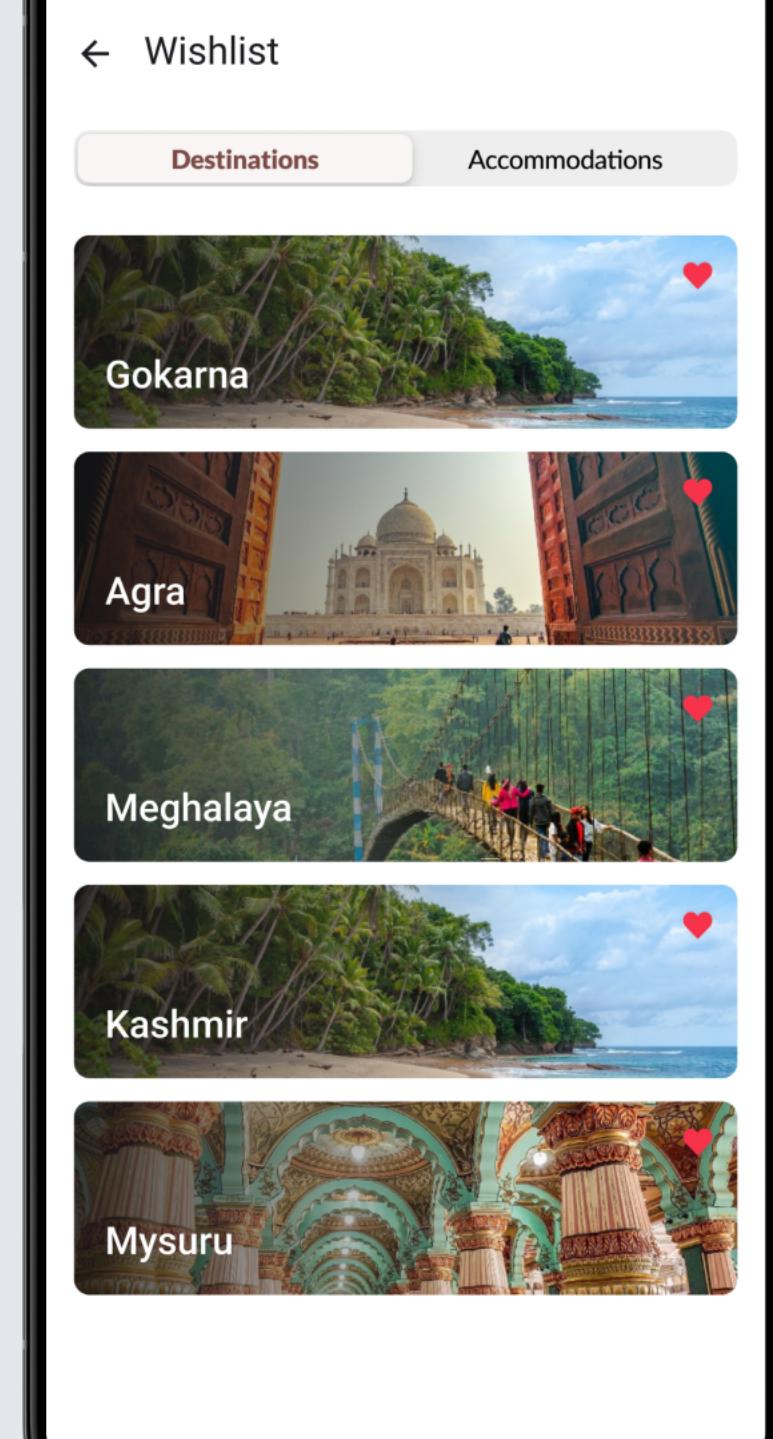

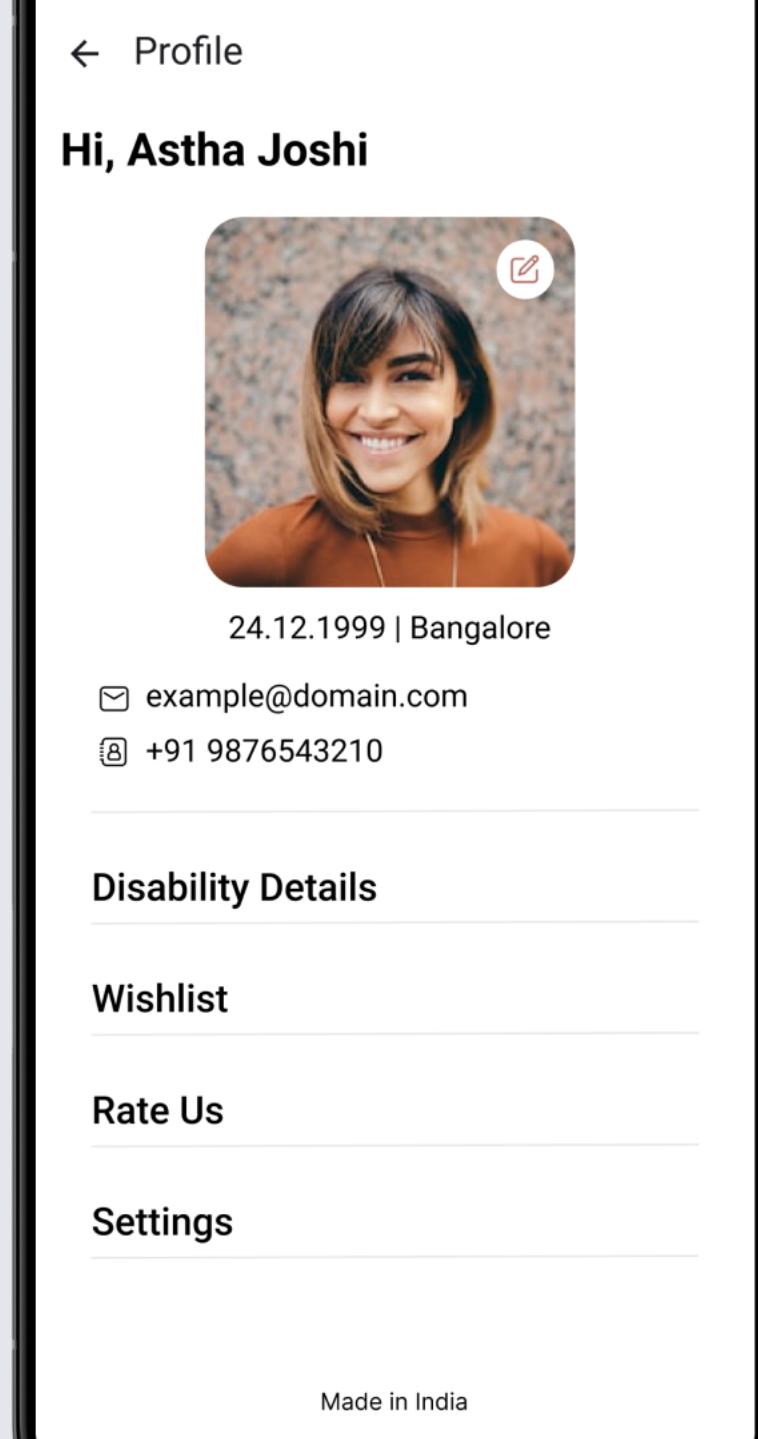

4 Switch between the tabs to check out the day-wise itinerary and exact location

ACCOUNT SCREENS

13 ACCOUNT

Profile

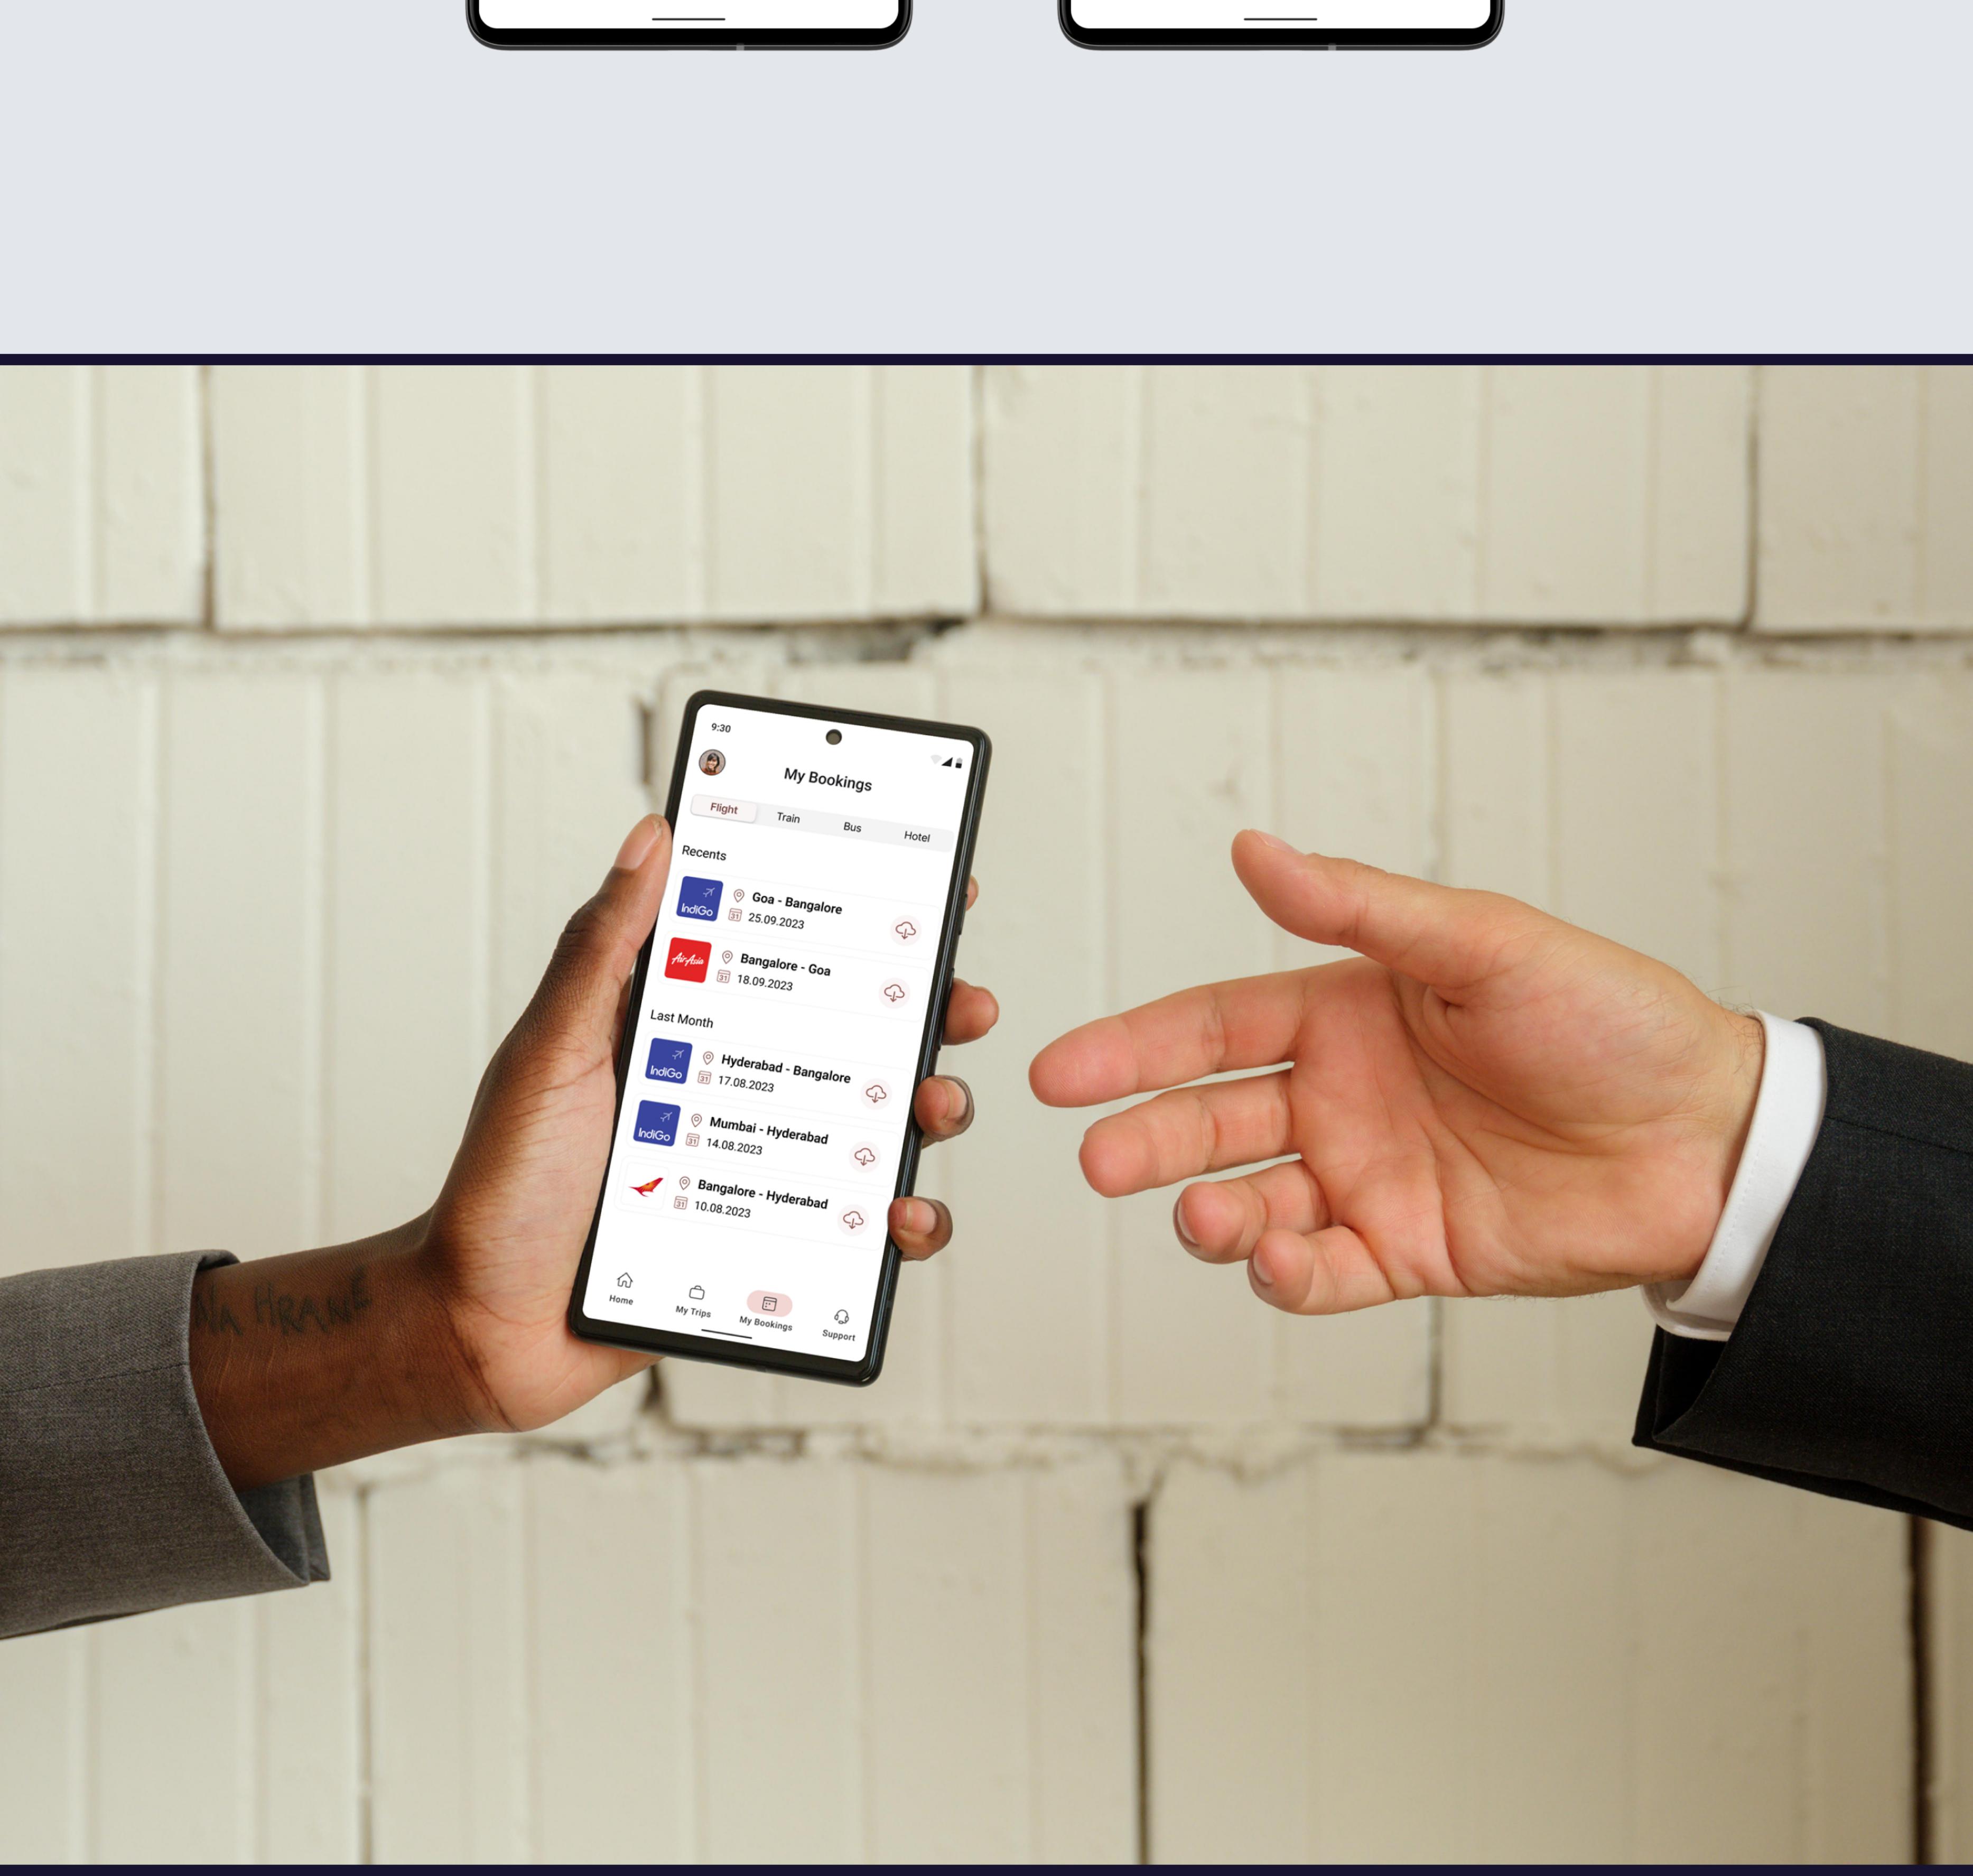

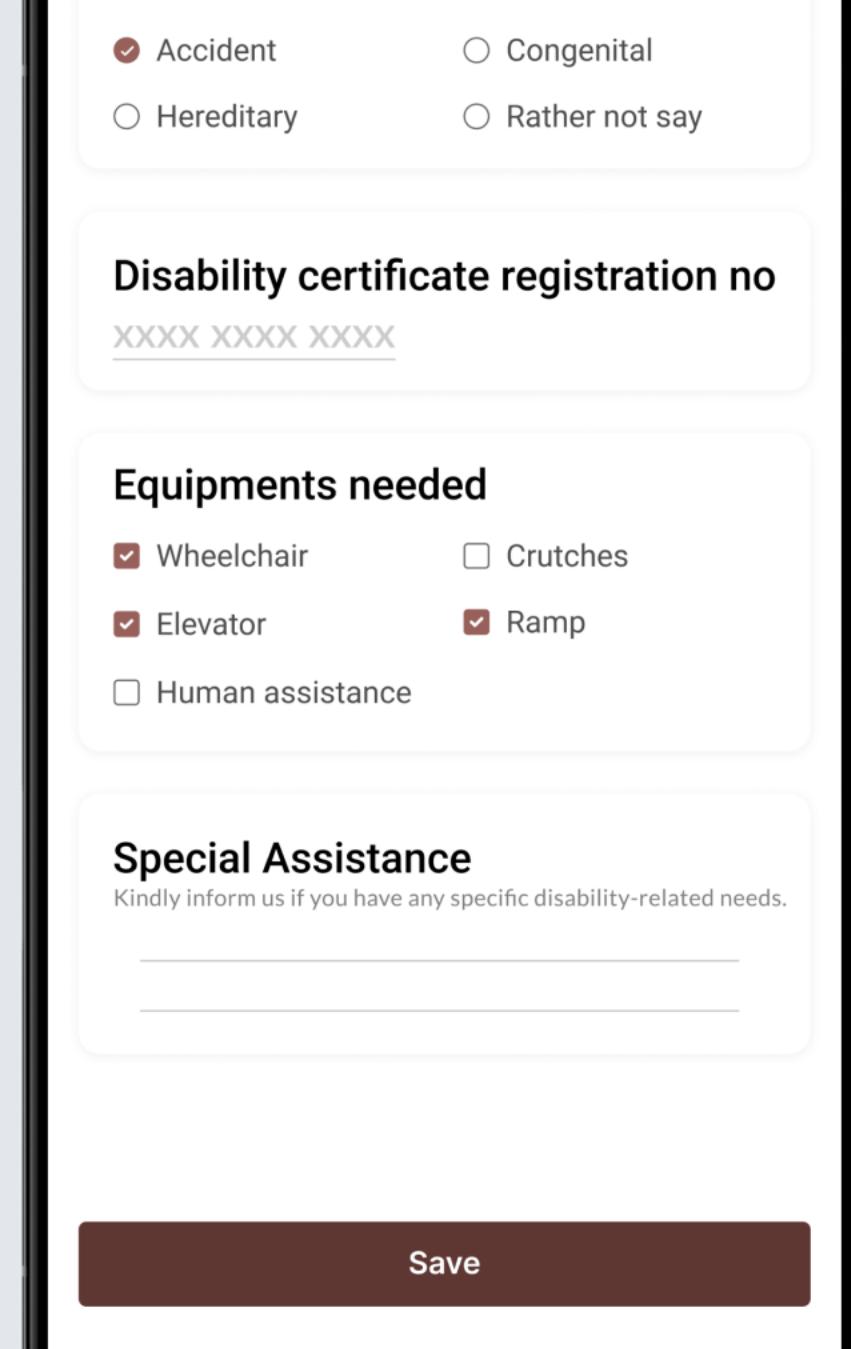

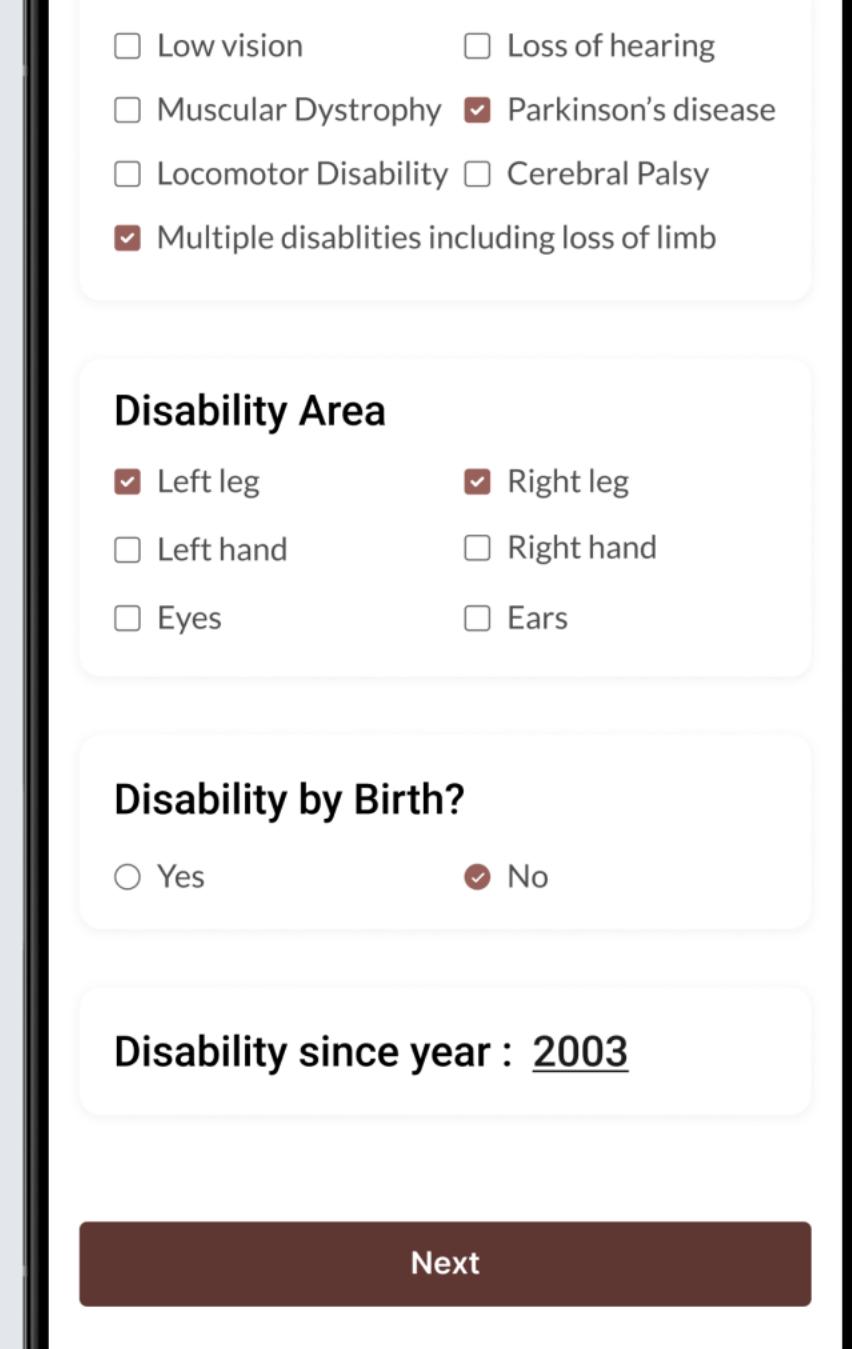

A personalized space to manage your account information, settings, wishlist, disability details and emergency info.

14 ACCOUNT

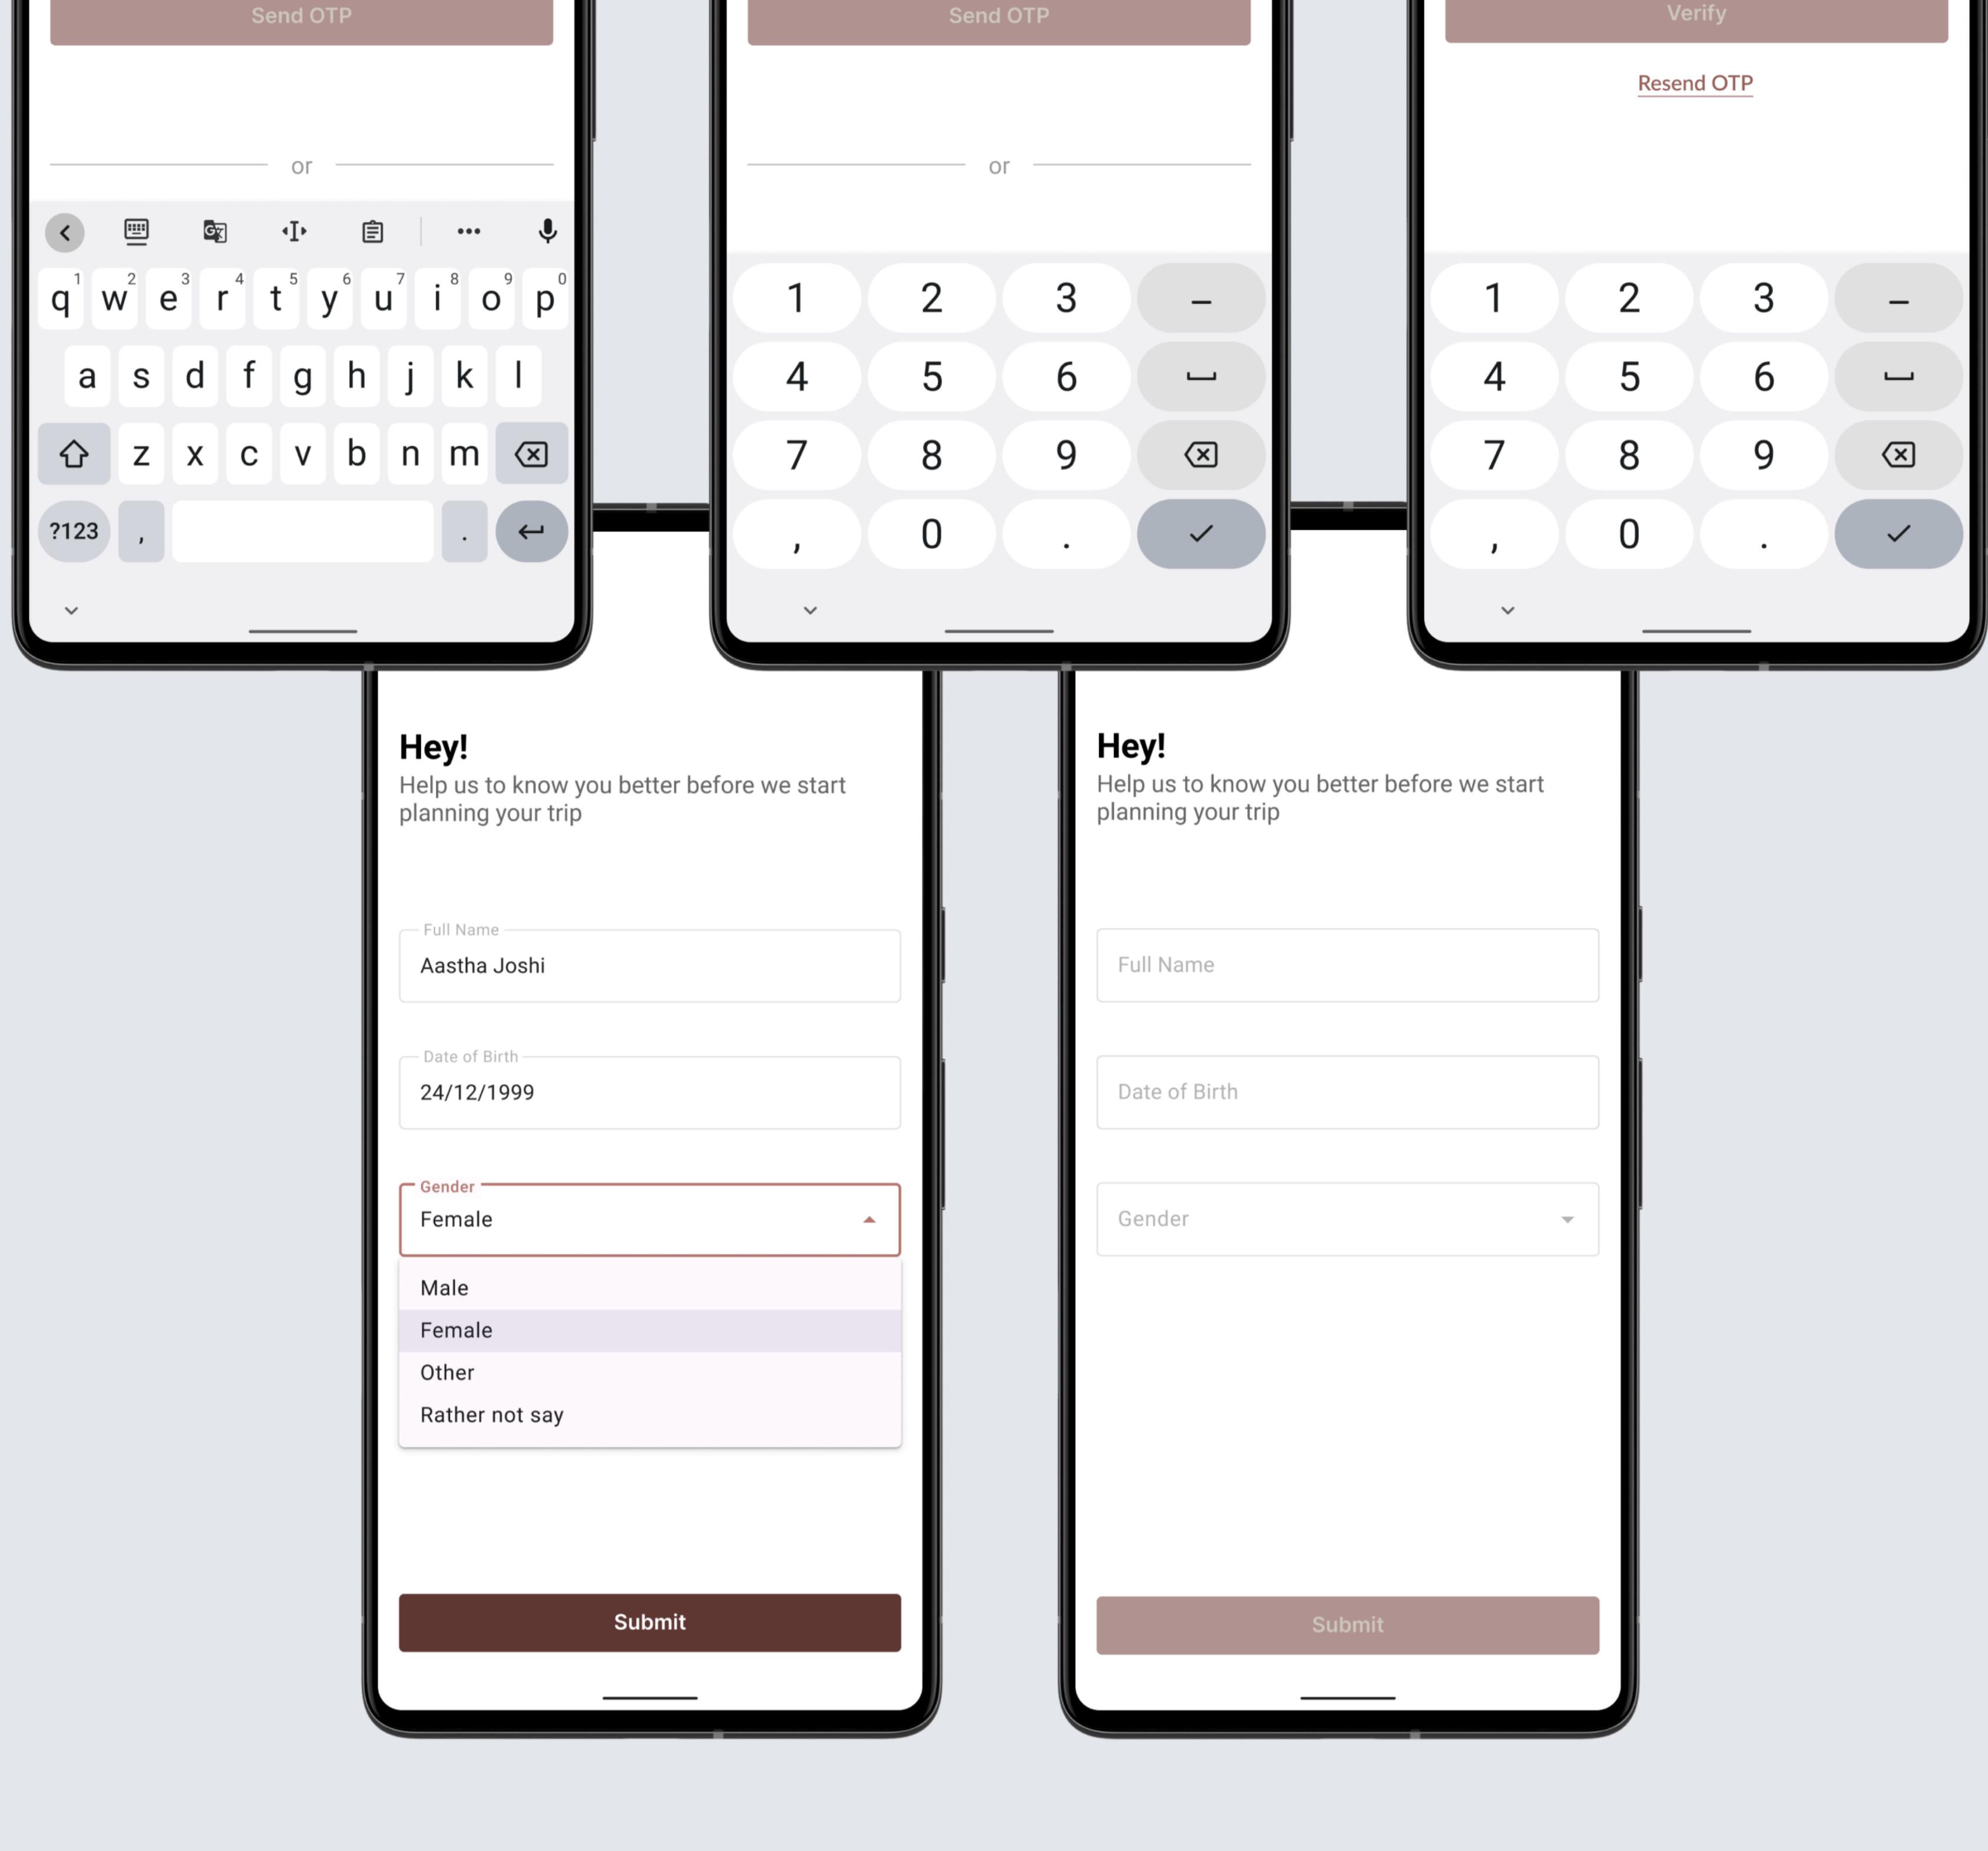

Disability Details

A personalized space to manage your account information, settings, wishlist, disability details and emergency info.
